SUPPLEMENTARY INFORMATION: The USCIS verification system, commonly called the Systematic Alien Verification for Entitlement (SAVE) Program, is currently available to and being utilized by the states. To comply with its responsibilities under the SSA, the Department of Labor (Department) must gather information from state agencies concerning alien claimant activities. The Alien Claimant Activity Report is the only source available for collecting this information.

The report allows the Department to determine the number of aliens filing for unemployment insurance (UI), the number of benefit issues detected and the denials resulting from the USCIS SAVE system. From these data, the Department can determine the extent to which state agencies use the system, and the overall effectiveness and cost efficiency of the USCIS SAVE verification system. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on August 1, 2024 (89 FR 62792).

Comments are invited on: (1) whether the collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (2) the accuracy of the agency’s estimates of the burden and cost of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of automated collection techniques or other forms of information technology.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB

approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid OMB Control Number. See 5 CFR 1320.5(a) and 1320.6.

DOL seeks PRA authorization for this information collection for three (3) years. OMB authorization for an ICR cannot be for more than three (3) years without renewal. The DOL notes that information collection requirements submitted to the OMB for existing ICRs receive a month-to-month extension while they undergo review.
