In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission (Commission or FERC) regulations contained in the Code of Federal Regulations (CFR) (18 CFR part 380 [FERC Order No. 486, 52 FR 47897]), the Office of Energy Projects has reviewed the applications for license for the Merced River Hydroelectric Project (FERC No. 2179), and the Merced Falls Hydroelectric Project (FERC No. 2467) and prepared a draft multi-project environmental impact statement (EIS) for the projects.

Both projects are located on the Merced River. The Merced River Project is located at river mile (RM) 62.5 and 56.3, respectively, about 23 miles northeast of the city of Merced in Mariposa County, California. The Merced Falls Project is located at RM 55 on the border of Merced and Mariposa Counties, California. The Merced Falls Project occupies 1.0 acre of federal land administered by BLM.

The draft EIS contains staff's analysis of the applicants' proposals and the alternatives for relicensing the Merced River and Merced Falls projects. The draft EIS documents the views of governmental agencies, non-governmental organizations, affected Indian tribes, the public, the license applicants, and Commission staff.

A copy of the draft EIS is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov>, using the "e-Library" link. [Docket No. CP15–61–000]

Northern Natural Gas Company; Notice of Staff Protest to Proposed Blanket Certificate Activity

Commission staff (Protestor) hereby protests the prior notice request filed under the provisions of part 157, subpart F, of the Commission's regulations, by Northern Natural Gas Company (Northern) on January 20,

2015 in the above referenced docket. Pursuant to its part 157, subpart F, blanket certificate authority, Northern proposes to construct and abandon facilities in Clark and Codington Counties, South Dakota. Protestor seeks to have this prior notice request processed as a case-specific application filed under section 7(c) of the Natural Gas Act and part 157, subpart A, of the Commission's regulations.¹

Protestor notes that on February 27, 2015, Northern filed a data response which described communication with the Sisseton-Wahpeton Oyate of the Lake Traverse Reservation (tribe). The tribe indicated that it would be necessary to conduct a Traditional Cultural Properties (TCP) survey to ensure that no TCPs would be affected by construction. Northern has not yet provided the results of the TCP survey. Northern must file with the FERC the results of the TCP survey and/or updated communication with the tribe to ensure the project's compliance with the National Historic Preservation Act, as required under Appendix II to Subpart F of Part 157 of the Commission's regulations. Without this information, environmental concerns cannot be adequately assessed before the protest period expires today.

Dated: March 31, 2015.
