

OMB Number 2060-0330; expires on 09/30/2012; Approved without change.

EPA ICR Number 2032.06; NESHAP for Hydrochloric Acid Production; 40 CFR part 63, subpart A and 40 CFR part 63, subpart NNNNN; was approved on 09/22/2009; OMB Number 2060-0529; expires on 09/30/2012; Approved without change.

EPA ICR Number 1899.05; Emission Guidelines for Hospital/Medical/ Infectious Waste Incinerators; 40 CFR part 60, subpart A, 40 CFR part 60, subpart Ce, and 40 CFR part 62, subpart HHH, was approved on 09/27/2009; OMB Number 2060-0422; expires on 09/30/2012; Approved with change.

EPA ICR Number 1803.07; Drinking Water State Revolving Fund Program; 40 CFR 35.3545, 35.3550, and 35.3570; was approved on 09/30/2009; OMB Number 2040-0185; expires on 02/28/2010; Approved with change.

EPA ICR Number 1391.09; Clean Water Act State Revolving Fund Program; 40 CFR part 35, subpart K; was approved on 09/30/2009; OMB Number 2040-0118; expires on 12/31/2011; Approved with change.

EPA ICR Number 0938.17; General Administrative Requirements for Assistance Programs; 40 CFR parts 30 and 31; was approved on 09/30/2009; OMB Number 2030-0020; expires on 04/30/2012; Approved with change.

OMB Number Transfers

EPA ICR Number 1363.18; Toxic Chemical Release Reporting (Form R); 40 CFR part 372; the OMB number was changed from 2070-0093 to 2025-0009 on 09/16/2009.

EPA ICR Number 1704.10; Toxic Chemical Release Reporting, Alternate Threshold for Low Annual Reportable Amounts (Form A); 40 CFR part 372; the OMB number was changed from 2070-0143 to 2025-0010 on 09/16/2009.

Dated: October 13, 2009.

John Moses,

Director, Collections Strategies Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2009-0529; FRL-8971-1]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Synthetic Fiber Production Facilities, EPA ICR Number 1156.11, OMB Control Number 2060-0059

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before November 20, 2009.

ADDRESSES: Submit your comments, referencing docket ID number EPA-OECA-2009-0529, to (1) EPA online using www.regulations.gov (our preferred method), or by e-mail to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT:

Robert C. Marshall, Jr., Office of Enforcement Compliance Assurance, 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-7021; e-mail address: marshall.robert@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On July 30, 2009 (74 FR 38004), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2009-0529, which is available for public viewing online at <http://www.regulations.gov>, in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the

Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov>, to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to www.regulations.gov.

Title: NSPS for Synthetic Fiber Production Facilities (Renewal).

ICR Numbers: EPA ICR Number 1156.11, OMB Control Number 2060-0059.

ICR Status: This ICR is scheduled to expire on October 31, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This subpart applies to affected facilities at synthetic fiber production facilities including each solvent-spun synthetic process that produces more than 500 megagrams of fiber per year. The affected entities are subject to the General Provisions of the NSPS at 40 CFR part 60, subpart A and any changes, or additions to the General Provisions specified at 40 CFR part 60, subpart HHH. Owners or operators of the affected facilities must make an initial notification, performance tests, periodic reports, and maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring

system is inoperative. Reports, at a minimum, are required semiannually.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 34 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Synthetic fiber production facilities.

Estimated Number of Respondents: 22.

Frequency of Response: Initially, occasionally, quarterly, and semiannually.

Estimated Total Annual Hour Burden: 1,859.

Estimated Total Annual Cost: \$315,119, which includes \$150,119 in labor costs, no annualized capital/startup costs and operation and maintenance (O&M) costs of \$165,000.

Changes in the Estimates: There is no change in the labor hours or cost to the respondents in this ICR compared to the previous ICR. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for respondents is very low, negative, or non-existent. Therefore, the labor hours and cost figures in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR.

Dated: October 13, 2009.

John Moses,

Director, Collection Strategies Division.

Integrated Risk Information System (IRIS) Update Project; Announcement of 2009/2010 Agenda

AGENCY: Environmental Protection Agency.

ACTION: Notice of 2009/2010 IRIS Update Project and request for information.

SUMMARY: The U.S. Environmental Protection Agency (EPA) is announcing the establishment of the Integrated Risk Information System (IRIS) Update Project. The purpose of the IRIS Update Project is to revisit a portion of the dose-response assessment values with a posting date on the IRIS database that is more than 10 years old. IRIS is an EPA data base containing human health risk information on possible adverse health effects that may result from chronic or long-term exposures to chemical substances found in the environment. This **Federal Register** notice (FRN) also announces the IRIS Update Project's 2009/2010 agenda and requests submission of new and relevant scientific information on health effects for the identified assessments listed in the Project's 2009/2010 agenda.

While EPA is not expressly soliciting comments on this notice, the Agency will accept information related to the substances included herein. Please submit any information in accordance with the instructions provided below.

DATES: Information must be submitted within 60 days of the publication of this notice. The 60-day period begins October 21, 2009 and ends December 21, 2009. Technical comments should be in writing and must be received by EPA by December 21, 2009.

ADDRESSES: Comments may be submitted electronically via <http://www.regulations.gov>, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions provided in the **SUPPLEMENTARY INFORMATION** section of this notice.

FOR FURTHER INFORMATION CONTACT: For information on the public comment period, contact the Office of Environmental Information Docket; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail: ORD.Docket@epa.gov. For information on the IRIS Update project, contact Dr. Chon Shoaf, National Center for Environmental Assessment, (mail code: B243-01), Office of Research and Development, U.S. Environmental

Protection Agency, RTP, NC 27711; telephone: 919-541-4155, facsimile: 919-541-1818; or e-mail: shoaf.chon@epa.gov.

SUPPLEMENTARY INFORMATION:

Background

The intent of the IRIS Update Project is to revisit all dose-response assessment toxicity values such as oral reference doses (RfDs), inhalation reference concentrations (RfCs), cancer oral slope factors, and cancer inhalation unit risks in IRIS with a posting or entry date more than 10 years old.

IRIS is a database of human health effects that may result from chronic exposure to various chemical substances or other contaminants found in the environment. IRIS currently provides information on health effects associated with more than 500 chemical substances. The database includes substance-specific summaries of qualitative and quantitative health information in support of the first two steps of the risk assessment process, *i.e.*, hazard identification and dose-response evaluation. Also, IRIS has included detailed Toxicological Reviews as support documents since 1995. Government and private entities use IRIS, combined with specific exposure information, to help characterize public health risks of chemical substances in a site-specific situation and thereby support risk management decisions designed to protect public health. IRIS is prepared and maintained by the EPA's National Center for Environmental Assessment within the Office of Research and Development.

While separate from the regular IRIS program, the IRIS Update Project draws on the IRIS data base as the source of human health assessments in need of update. The purpose of the IRIS Update Project is to replace existing IRIS assessment toxicity values and their supporting information that are more than 10 years old with new and relevant scientific information on health effects. As updated assessments are completed as part of this process, they will be posted on IRIS.

The IRIS Update Project defines "assessment" as an individual IRIS toxicity value along with its supporting information. For example, the Project identifies the values for an oral RfD, an inhalation RfC, and a cancer evaluation along with supporting information, as three assessments. Certain IRIS entries, however, may contain values that do not qualify for the update process. For example, a particular substance with an oral RfD derived 15 years ago would qualify for the update process, but a
