

Needs and Uses: NIST MEP offers technical and business assistance to small- and medium-sized manufacturers. This is a major program which links all 50 states and Puerto Rico and the manufacturers through more than 400 affiliated MEP Centers and Field Offices. NIST MEP has a number of legislative and contractual requirements for collecting data and information from the MEP Centers. This information is used for the following purposes: (1) Program accountability, (2) reports to stakeholders, (3) continuous improvement; and (4) identification of distinctive practices.

Revision: In order to reflect new NIST MEP initiatives and new data needs, NIST MEP has identified a need to revise its existing reporting processes by adding additional elements that will enable NIST MEP to better monitor and assess the extent to which the Centers are meeting program goals and milestones.

Affected Public: Business or other for-profit organizations.

Frequency: Quarterly, Bi-annually, Annually.

Respondent's Obligation: Required to obtain or retain benefits.

OMB Desk Officer: Jasmeet Seehra, (202) 395-3123.

Copies of the above information collection proposal can be obtained by calling or writing Jennifer Jessup, Departmental Paperwork Clearance Officer, (202) 482-0336, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at Jessup@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Jasmeet Seehra, OMB Desk Officer, FAX number (202) 395-5167 or via the Internet at Jasmeet_K_Seehra@omb.eop.gov.

National Oceanic and Atmospheric Administration

Rookery Bay, FL and Kachemak Bay, AK National Estuarine Research Reserve Management Plan Revisions

AGENCY: Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of Public Comment Period for the Rookery Bay, Florida and Kachemak Bay, Alaska National

Estuarine Research Reserve Management Plan Revisions.

SUMMARY: Notice is hereby given that the Estuarine Reserves Division, Office of Ocean and Coastal Resource Management, National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce is announcing a thirty day public comment period for the Rookery Bay, Florida and the Kachemak Bay, Alaska National Estuarine Research Reserve Management Plan Revisions. Pursuant to 15 CFR section 921.33(c), these revisions will bring these plans into compliance. The Rookery Bay, Florida Reserve is updating their last plan approved in 2003; and the Kachemak Bay, Alaska Reserve is updating their last plan approved in 2006. The revised management plans outline the administrative structure; the research, education, training, and stewardship goals of the reserve; and the plans for future land acquisition and facility development to support reserve operations.

The Rookery Bay Reserve takes an integrated approach to management, linking research, education, training and stewardship functions to address high priority issues including land use changes affecting freshwater inflow, loss of native biodiversity, lack of public awareness and community involvement in stewardship, incompatible use by visitors, and ecological impacts of catastrophic change events. Since the last management plan, the reserve has constructed additional exhibits and a pedestrian bridge that connects the Environmental Learning Center to a boardwalk and interpretive trails describing several ecosystems and functions. The revised management plan will serve as the guiding document for the 110,000 acre Rookery Bay Reserve for the next five years.

The Kachemak Bay Reserve takes an integrated approach to management, linking research, education, and training functions to address high priority issues including climate change and harvested species, such as salmon and shellfish. The reserve will continue research on coastal dynamics and their impact to coastal communities, and will be enhancing monitoring programs on invasive species and harmful algal blooms to transfer information to coastal decision makers. Since the last management plan, the reserve has constructed additional exhibits, completed habitat maps of the benthic and shoreline habitats of the bay, and contributed to the body of knowledge on the ecological value of headwater streams to juvenile salmon. The revised

management plan will serve as the guiding document for the 372,000 acre Kachemak Bay Reserve for the next five years. No additional lands have been added to the reserve boundary; the discrepancy in designated and current acreage is due to improved mapping accuracy.
