Comments

A 60-day Notice requesting public comment was published in the **Federal Register** on September 7, 2023 at 88 FR 61575. This comment period ended November 6, 2023. One public comment was received from this notice. The comment received inquired about (1) data collection and data ownership, (2) the purpose and need for the Public Health AmeriCorps Technical Assistance and Training Form, and (3) the length of the Public Health AmeriCorps Outcome Evaluation Draft survey. Responses are:

- All data collected will be managed and securely stored by the contractor and delivered to the AmeriCorps Office of Research and Evaluation (ORE) in aggregate form during the contract term, and after the contract ends, will be delivered to ORE as a de-identified public use data file and a restricted use data file. ORE will securely store the data and AmeriCorps programs will not have access to the data except in aggregate form, upon request.

- The Public Health AmeriCorps Technical Assistance and Training form was a requested instrument from the program team. This instrument will allow for the contractor to distill any information that wasn't already collected in the grantee survey or focus group guide. The instrument will be used as a supplemental tool to capture any additional information that wasn't collected in other activities.

- The evaluation team has been mindful of the length and burden of the member survey. The survey has gone through several iterations and has been shortened. The contractor piloted the instrument with up to nine members and conducted cognitive interviews after the members completed the survey. The version the contractor piloted took participants on average less than 30 minutes to complete and participants did not express dissatisfaction with the length of the survey. The reason for keeping questions that are also found in the Member Exit Survey (MES) is that participants in the Public Health AmeriCorps evaluation might not

complete the MES, and consequently it would not be possible to merge the two surveys. It is important for the Public Health AmeriCorps survey to include complete data to address the evaluation questions and to create more complete datasets across the agency. We want to ensure we close any gaps (intake information and member surveys) and confirm information already received. The purpose of reaching out to members who exited early is to better understand their experience and the challenges they encountered in completing their service. This data may inform programmatic changes with the aim of minimizing attrition among members. We will also benchmark the Public Health AmeriCorps survey to other similar public health programs to see how Public Health AmeriCorps is achieving the goal of creating a pathway to public health careers.

Title of Collection: Evaluation of Public Health AmeriCorps.

OMB Control Number: 3045–NEW.
Type of Review: New.

Respondents/Affected Public: Individuals and Households (AmeriCorps Members) and Businesses and Organizations (Grantees).

Total Estimated Number of Annual Responses: 2,198.

Total Estimated Number of Annual Burden Hours: 2,097.

Abstract: The evaluation will examine the extent to which Public Health AmeriCorps is progressing toward its goals to address public health needs and develop the next generation of public health leaders. The evaluation will answer questions about the challenges and successes with program implementation, recruitment and retention of members, partnership between grantees and other organizations such as state and local health departments, members' career intentions, and members' professional development. This information collection request includes several information collection instruments: a member alumni survey, an early exit survey, a grantee survey, a training and technical assistance form, grantee focus group questions, early exit interview questions, and partner interview questions. The burden hour per response for each of these instruments ranges from 15 minutes to an hour and a half. Throughout the evaluation design process, AmeriCorps received feedback and guidance from partners and advisory groups, including AmeriCorps staff, CDC staff, and public health and

public health workforce professionals. This is a new information collection.

Title: FERC–725E, Mandatory Reliability Standards for the Western Electric Coordinating Council (WECC).

OMB Control No.: 1902–0246.

Type of Request: Revision and extension to the FERC–725E information collection requirements.

Abstract: FERC–725E is the information collection that is required to implement the statutory provisions of section 215 of the Federal Power Act (FPA) (16 U.S.C. 824o). Section 215 of the FPA buttresses the Commission's efforts to strengthen the reliability of the interstate grid through the grant of new authority by providing for a system of mandatory Reliability Standards developed by the Electric Reliability Organization (ERO). Reliability Standards that the ERO proposes to the Commission may include Reliability Standards that are proposed to the ERO by a Regional Entity.¹ A Regional Entity is an entity that has been approved by the Commission to enforce Reliability Standards under delegated authority from the ERO.² On June 8, 2008, the Commission approved eight regional
