Substance Abuse and Mental Health Services Administration

Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a summary of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (240) 276-1243.

Project: Now Is the Time (NITT)—Healthy Transitions (HT) Evaluation—New

SAMHSA is conducting a national evaluation of the Now is the Time (NITT) initiative, which includes separate programs—NITT Project AWARE (Advancing Wellness and Resilience in Education)—State Educational Agency (SEA), Healthy Transitions (HT), and two Minority Fellowship Programs (Youth and Addiction Counselors). These programs are united by their focus on capacity building, system change, and workforce development.

NITT-HT, which is the focus of this data collection, represents a response to the fourth component of President

Obama's NITT Initiative: Increasing access to mental health services. The purpose of the NITT-HT program is to improve access to treatment and support services for youth/young adults 16–25 years that either have, or are at risk of developing a mental illness or substance use disorder, and are at high risk of suicide. NITT-HT grants were made to 17 state or local jurisdictions, each of which include 2–3 learning laboratories (n = 43), which are the local communities of practice responsible for implementing the NITT-HT approach. The NITT-HT program aims to increase awareness about early signs and symptoms of mental health conditions in the community; identify action strategies to use when a mental health concern is detected; provide training to provider and community groups to improve services and supports for youth/young adults; enhance peer and family supports; and develop effective services and interventions for youth and young adults with a serious mental health condition and their families. The NITT-HT evaluation is designed to understand whether and how NITT-HT grantees reach these program goals by examining system- and grantee-level processes and system- and client-level outcomes. Data collection efforts that will support the evaluation are described below.

The *Community Support for Transition Inventory (CSTI)* will assess systems change for communities implementing comprehensive, community-based approaches to improve outcomes for emerging adults with serious mental health conditions. The *CSTI* is organized around seven themes: Community partnership, collaborative action, transition planning quality assurance and support, workforce, fiscal policies and sustainability, access to needed support and services, and accountability. The *CSTI* is a web-based survey to be completed by 1,075 community leaders (15–25 community leaders per 43 learning laboratories) once during Year 2 and once during Year 4 of the grant period. Community leaders include members of the local advisory or steering committee, staff of the NITT-HT program, staff of agencies providing portions of the services, and young adult and family members' advocates.

The *State Support for Transition Inventory (SSTI)* will assess state support for systems change and is organized around six themes (partnership, collaborative action, workforce, fiscal policies & sustainability, access to needed supports & services, and accountability). The *SSTI* is a web-based survey to be
