II. Background

The PPDC is a federal advisory committee chartered under the Federal Advisory Committee Act (FACA), Public Law 92-463. EPA established the PPDC in September 1995 to provide advice and recommendations to the EPA Administrator on issues associated with pesticide regulatory development and reform initiatives, evolving public policy and program implementation issues, and policy issues associated with evaluating and reducing risks from use of pesticides. The following sectors are represented on the current PPDC: Environmental/public interest and animal rights groups; farm worker organizations; pesticide industry and trade associations; pesticide user, grower, and commodity groups; Federal and State/local/tribal governments; the general public; academia; and public health organizations.

III. How do I participate in the virtual public meeting?

A. Virtual Meeting

The virtual meeting will be conducted via webcast. Proposed Settlement Agreements, Clean Water Act and Endangered Species Act

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for public comment.

SUMMARY: In accordance with the Environmental Protection Agency (EPA) Administrator's October 16, 2017, Directive Promoting Transparency and Public Participation in Consent Decrees and Settlement Agreements, notice is hereby given of a proposed stipulated order of dismissal to address several claims in a lawsuit filed by Northwest Environmental Advocates ("Plaintiff") in the U.S. District Court for the Western District of Washington. On December 7, 2016 the Plaintiff filed a complaint alleging, among other things, that the EPA's failed to perform duties mandated by the Endangered Species Act (ESA) to consult with the Fish & Wildlife Service and the National Marine Fisheries Service (collectively "the Services") regarding its actions under the Clean Water Act (CWA) with respect to nonpoint source management programs administered by the State of

Washington Department of Ecology ("Ecology"). EPA seeks public input on the proposed stipulated order of dismissal prior to its final decision-making to settle the litigation.

DATES: Written comments on the proposed settlement agreements must be received by *November 12, 2020*.

ADDRESSES: Submit your comments, identified by Docket ID number EPA-HQ-OGC-2020-0507, online at www.regulations.gov (EPA's preferred method). For comments submitted at www.regulations.gov, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from www.regulations.gov. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA generally will not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). The EPA encourages the public to submit comments via www.Regulations.gov, as there will be a delay in processing mail and no hand deliveries will be accepted. For additional submission methods, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

SUPPLEMENTARY INFORMATION:

I. Additional Information About the Proposed Stipulated Dismissal

On December 7, 2016, Plaintiff filed suit in the federal district court for the Western District of Washington. Plaintiff's original Complaint brought six claims alleging violations of various statutes by EPA and the National Oceanic & Atmospheric Administration ("NOAA"), including Administrative Procedure Act ("APA") claims alleging

violations of the Coastal Zone Management Act, the CWA, the Coastal Zone Act Reauthorization Amendments, and the ESA. The State of Washington Department of Ecology ("Ecology") also intervened as a defendant in the litigation, as did the Washington State Farm Bureau Federation and Washington Cattlemen's Association. Each party filed motions designed to resolve some of the claims in the dispute. The proposed stipulated order of dismissal would resolve the remaining claims, specifically the remaining claims against EPA under the CWA and ESA.

Plaintiff's remaining claims are that EPA: Violated CWA section 319 by approving Ecology's 2015 nonpoint source program update; violated CWA section 319(h)(8) in successive determinations in 2015, 2016, and 2017 that Washington had made "satisfactory progress" in implementing its nonpoint source program over the preceding years (2014, 2015, 2016); and violated ESA section 7 by failing to consult on the preceding actions, as well as on EPA's annual awards of CWA section 319 grant funds in each year between 2011-2017.

Under the proposed stipulated order of dismissal, EPA's obligations would be as follows: EPA's approval of Ecology's 2015 program update submittal would be remanded to EPA, and EPA's reconsideration of the program update (and associated ESA procedural commitments) would be stayed pending Ecology's action (or inaction as of a date certain) in submitting its next anticipated program update under section CWA section 319. Under the proposed settlement, EPA would be obligated to make an effects determination under ESA regulations, pursuant to 50 CFR 402.14(a), on EPA's approval, if any, of either Ecology's 2015 Submittal or its next nonpoint source management program update, depending on whether Ecology timely submits an update and, as appropriate, request initiation of ESA section 7 consultation with the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service. Specifically, if Ecology does not submit a program update by December 31, 2021, or a mutually negotiated extension, EPA would proceed with an ESA effects determination based on the State's 2015 submittal (which EPA approved in 2015) and, as appropriate, request initiation of ESA section 7 consultation. EPA also would make an "effects determination" under the ESA for the first "satisfactory progress" determination (under CWA section 319(h)(8)) associated with issuance of
