Background

The FHWA, in cooperation with the Wisconsin Department of Transportation, will prepare a Draft Environmental Impact Statement (EIS) on a proposal to provide safety, operational and capacity improvements on an approximate 21 kilometers (13 miles) section of STH 83 between CTH "NN" at the north limits of the Village of Mukwonago and the vicinity of IH-94 in Waukesha County. The proposal is being considered to address existing and future transportation demand on STH 83 (as identified in the 2020 Regional Transportation System Plan for Southeastern Wisconsin), to improve safety, and to preserve land for future transportation improvements. The environmental impact statement will evaluate the social, economic and environmental impacts of alternatives, including: (1) No build, (2) improvements within the existing highway corridor, and (3) improvements on new location.

Information describing the proposed action and soliciting comments will be sent to appropriate Federal, State and local agencies and to private agencies and to private organizations and citizens who have expressed, or are known to have an interest in this proposal. A project advisory committee comprised of Federal and State agencies, local officials, environmental, and other community interests will be established to provide input during development and refinement of alternatives and impact evaluation activities. Public meetings and other forums will be held to solicit comments from citizens and interest groups. In addition, a public hearing will be held. Public notice will be given of the time and place of the meetings and hearing. The draft EIS will be available for public and agency review and comment prior to the public hearing. Agencies having an interest in or jurisdiction regarding the proposed action will be contacted through interagency coordination meetings and mailings.

To ensure that the full range of issues related to this proposed action are addressed, and all substantive issues are identified, comments and suggestions are invited from all interested parties. Comments or questions concerning this proposed action and the EIS should be directed to FHWA or the Wisconsin Department of Transportation at the addresses provided in the caption **FOR FURTHER INFORMATION CONTACT**
