

**Summary of Information Collection**

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Race and National Origin Identification.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: ATF F 2931.1. Bureau of Alcohol, Tobacco, Firearms and Explosives.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* Primary: Individuals or households. Other: None.

**Need for Collection**

The information collection is used to maintain Race and National Origin data on all employees and new hires to meet diversity/EEO goals and act as a component of a tracking system to ensure that personnel practices meet the requirements of Federal laws.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* It is estimated that 10,000 respondents will complete a 3 minute form.

(6) *An estimate of the total public burden (in hours) associated with the collection:* There are an estimated 500 annual total burden hours associated with this collection.

If additional information is required contact: Lynn Murray, Department Clearance Officer, Policy and Planning Staff, Justice Management Division, Department of Justice, Two Constitution Square, 145 N Street NE., Room 2E-808, Washington, DC 20530.

Dated: May 5, 2011.

**BILLING CODE 4410-FY-P**

**DEPARTMENT OF JUSTICE****Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—Marine Well Containment Venture**

Notice is hereby given that, on March 04, 2011, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), Marine Well Containment Venture ("MWCV") has filed written notifications simultaneously with the Attorney General and the Federal Trade

Commission disclosing changes in its membership, nature and objectives. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, BP Offshore Response Company LLC, Houston, TX, has been added as a party to this venture. The changes in its nature and objectives are: (1) In furtherance of the venture's previously-disclosed objectives, the previously-disclosed parties to MWCV have formed Marine Well Containment Company LLC ("MWCC LLC"), a Delaware limited liability company located in Houston, TX; and (2) in furtherance of the venture's previously-disclosed objectives, MWCC LLC and the parties to MWCV have entered into a System Development Agreement.

No other changes have been made in either the membership or planned activity of the venture. The composition of members in this venture may change, and MWCV intends to file additional written notifications disclosing all changes in membership.

On August 18, 2010, MWCV filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on October 12, 2010 (75 FR 62570).

The last notification was filed with the Department on September 29, 2010. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act November 15, 2010 (75 FR 69705).

**BILLING CODE 4410-11-M**

**DEPARTMENT OF JUSTICE****Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—National Biodiesel Accreditation Commission**

Notice is hereby given that, on April 14, 2011, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), National Biodiesel Accreditation Commission ("NBAC") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing additions or changes to its standards development activities. The notifications were filed for the purpose of extending the Act's

provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, the NBAC has amended various aspects of its BQ-9000 standard in several ways, including, but not limited to, the following: The Producer Standard now requires reporting of significant process changes; adds more specific requirements for product homogeneity and sampling; codifies several previously informal policies; and implements a weighted ranking system. The Marketer Standard is amended to answer questions about operating multiple facilities; adds an oxidation stability reporting requirement; addresses a marketer functioning as a broker; creates exceptions for blends of 399 and higher; codifies several previously informal policies; implements a weighted ranking system; and adds a provision for external laboratory verification.

On August 27, 2004, NBAC filed its original notification pursuant to Section 6(a) of the Act. The Department of Justice published a notice in the **Federal Register** pursuant to Section 6(b) of the Act on October 4, 2004 (69 FR 59269).

The last notification was filed with the Department on May 15, 2009. A notice was published in the **Federal Register** pursuant to Section 6(b) of the Act on July 17, 2009 (74 FR 34788).

**DEPARTMENT OF JUSTICE****Antitrust Division****Notice Pursuant to the National Cooperative Research and Production Act of 1993—American Society of Mechanical Engineers**

Notice is hereby given that, on April 12, 2011, pursuant to Section 6(a) of the National Cooperative Research and Production Act of 1993, 15 U.S.C. 4301 *et seq.* ("the Act"), American Society of Mechanical Engineers ("ASME") has filed written notifications simultaneously with the Attorney General and the Federal Trade Commission disclosing additions or changes to its standards development activities. The notifications were filed for the purpose of extending the Act's provisions limiting the recovery of antitrust plaintiffs to actual damages under specified circumstances. Specifically, since January 7, 2011, ASME has published one new standard
