This proposed information collection was previously published in the **Federal Register** on June 20, 2001, pages 33104–33105, and allowed 60-days for public comment. Proposed Collection

Title: Hazardous Waste Worker Training—42 CFR part 65.

Type of Information Collection Request: Revision of OMB No. 0925–0348, expiration date January 31, 2002.

Need of Use of Information Collection: This request for OMB review and approval of the information collection is required by regulation 42 CFR part 65(a)(6).

The National Institute of Environmental Health Sciences (NIEHS) has been given major responsibility for initiating a worker safety and health training program under section 126 of the Superfund Amendments and Reauthorization Act of 1986 (SARA) for hazardous waste workers and emergency responders. A network of non-profit organizations that are committed to protecting workers and their communities by delivering high-quality, peer-reviewed safety and health curricula to target populations of hazardous waste workers and emergency responders has been developed. In 13 years (FY 1987–2000), the NIEHS Worker Training program has successfully supported 20 primary grantees that have trained nearly 1 million workers across the country and presented over 54,000 classroom and hands-on training courses, which have accounted for nearly 16 million contact hours of actual training. Generally, the grant will initially be for 1 year, and subsequent continuation awards are also for one year at a time. Grantees must submit a separate application to have the support continued for each subsequent year. Grantees are to provide information in accordance with S65.4(a), (b), (c), and 65.6(b) on the nature, duration, and purpose of the training, selection criteria for trainees' qualifications and competency of the project director and staff, cooperative agreements in the case of joint

applications, the adequacy of training plans and resources, including budget and curriculum, and response to meeting training criteria in OSHA's Hazardous Waste Operations and Emergency Response Regulations (29 CFR 1910.120). As a cooperative agreement, there are additional requirements for the progress report section of the application. Grantees are to provide their information in hard copy as well as enter information into the WETP Grantee Data Management System. The information collected is used by the Director through officers, employees, experts, and consultants to evaluate applications based on technical merit to determine whether to make awards.

Type of Respondents: Grantees. The annual reporting burden is as follows:

Estimated Number of Respondents: 18.

Estimated Number of Responses Per Respondent: 2.
