SUPPLEMENTARY INFORMATION: This ICR seeks approval under the PRA for revisions to the Unemployment Insurance (UI) Data Validation (DV) Program. The UI DV Program requires a State to operate a system for ascertaining the validity (*i.e.*, adherence to Federal reporting requirements) of specified UI data submitted to the ETA on certain monthly or quarterly reports. Some of these data are used to assess performance, including for the Government Performance and Results Act, or to determine States grants for administration of the UI Program. This information collection is a revision, because updates were made to incorporate guidance from UI Program Letter 22-05 into the Benefits and Tax Handbooks. Social Security Act section 303(a)(6) authorizes this information collection. See 42 U.S.C. 503 (a)(6).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB, under the PRA, approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1205-0431. The current approval is scheduled to expire on August 31, 2019; however, the DOL notes that existing information collection requirements submitted to the OMB will receive a month-to-month extension while they undergo review. New requirements would only take effect upon OMB approval. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on March 13, 2019 (84 FR 9141).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty-(30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number

1205-0431. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
