Florida Gas Transmission Company, LLC; Notice of Application To Amend Authorization

May 8, 2008.

Take notice that on May 2, 2008, Florida Gas Transmission Company, LLC (FGT), 5444 Westheimer Road, Houston, Texas 77056, filed in Docket No. CP06–9–001, an application, pursuant to section 7 of the Natural Gas Act (NGA), for an order amending its authorization granted by the Commission in Docket No. CP06–9–000 on May 30, 2006 in order to continue the existing certificate authority for its 18-inch and 24-inch pipelines located in Broward County, Florida and hold in abeyance the abandonment authority for these facilities until newly identified conflicts with planned construction by the Florida Department of Transportation/Florida Turnpike Enterprise are resolved, or for a period not to exceed 36 months, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is accessible on-line at <http://www.ferc.gov>, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call

(866) 208–3676 (toll free). For TTY, call (202) 502–8659.

Any questions regarding this application should be directed to Michael T. Langston, Senior Vice President of Government and Regulatory Affairs, Florida Gas Transmission Company, LLC, 5444 Westheimer Road, Houston, Texas 77056 at (713) 989–7610.

Pursuant to section 157.9 of the Commission’s rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission’s public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff’s issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.

There are two ways to become involved in the Commission’s review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission’s Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will

consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission’s rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the “eFiling” link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the “eLibrary” link and is available for review in the Commission’s Public Reference Room in Washington, DC. There is an “eSubscription” link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Boise-Kuna Irrigation District, Nampa & Meridian Irrigation District, New York; Irrigation District, Wilder Irrigation District, and Big Bend Irrigation District; Notice of Availability of Environmental Assessment

May 9, 2008.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by Boise-Kuna Irrigation District, *et al.* (licensee) on August 1, 2007, requesting Commission approval of: (1) An extension of time for the commencement of project construction to December 13, 2009, pursuant to Public Law 109-383; (2) changes to dates or time periods specified in license articles relating to actions that would be affected by an amendment; and (3) amendments to project design. The licensee proposes to install two 7.5-megawatt (MW) generating units with a total installed capacity of 15 MW, instead of two, 30-MW generating units with a total installed capacity of 60 MW, as authorized in the March 27, 1989 Order Issuing License. The licensee also proposes to decrease the length of the licensed project's transmission line. Finally, the licensee requests deletion or revision of certain license articles that are related to the proposed design changes. The project would be located at the U.S. Bureau of Reclamation's (Reclamation) existing Arrowrock Dam on the Boise River, in Elmore and Ada Counties, Idaho. Parts of the project would occupy lands managed by Reclamation, the U.S. Corps of Engineers, and the U.S. Forest Service within Boise National Forest.

The EA concludes that the proposed amendment, with staff-recommended mitigation measures, would not constitute a major federal action significantly affecting the quality of the human environment.

Any comments should be filed within 30 days from the date of this notice and should be addressed to Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First

Street, NE., Washington, DC 20426. A copy of the EA is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the e-Library link. Enter the docket number "P-4656" in the docket number field to access the document. For assistance, call (202) 502-8222 or (202) 502-8659 (for TTY).

[Docket No. CP08-32-000]

Natural Gas Pipeline Company of America; Notice of Availability of the Environmental Assessment for the Proposed Herscher-Galesville Expansion Project

May 9, 2008.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the natural gas pipeline facilities proposed by Natural Gas Pipeline Company of America (Natural) in the above-referenced docket.

The EA was prepared to satisfy the requirements of the National Environmental Policy Act (NEPA) of 1969. The staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

The EA assesses the potential environmental effects of the construction and operation of the proposed project. Natural proposes to add new and modify existing natural gas storage field facilities, and add compression to Compressor Station 201, at its existing Herscher-Galesville Gas Storage Field in Kankakee County, just south of the Town of Herscher, Illinois. Specifically, the project would include:

- Construction of 15 new water withdrawal wells with pumps;
- Construction of 11 new water disposal wells;
- Construction of three booster pumps at existing water disposal wells;
- Up to four lateral recompletions at existing water disposal wells;

- Construction of workover/ extensions on five existing gas withdrawal/injection wells;

- Construction of a new 8,180 horsepower (hp) gas-fired engine compressor unit within Compressor Station 201; and

- Replacement, looping or extension of 12 waterlines with 8- to 13-inch-diameter plastic pipelines.

The purpose of this project is to increase the Herscher-Galesville Gas Storage Field's working gas capacity by 10 billion cubic feet and increase the peak day withdrawal capacity. Natural would achieve this increased capacity by constructing facilities to remove water from the field. Reworking of five existing gas withdrawal/injection wells, and construction of the new compressor unit within its existing adjacent Compressor Station 201, would enable Natural to increase peak day withdrawal capacity.

The EA has been placed in the public files of the FERC. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street, NE., Room 2A, Washington, DC 20426, (202) 502-8371.

Copies of the EA have been mailed to Federal, state and local agencies, public interest groups, interested individuals, newspapers, and parties to this proceeding.

Any person wishing to comment on the EA may do so. To ensure consideration prior to a Commission decision on the proposal, it is important that we receive your comments before the date specified below.

Please note that the Commission strongly encourages electronic filing of any comments or interventions or protests to this proceeding. See 18 Code of Federal Regulations 385.2001(a)(1)(iii) and the instructions on the Commission's Internet Web site at <http://www.ferc.gov> under the link to "Documents and Filings" and "eFiling." eFiling is a file attachment process and requires that you prepare your submission in the same manner as you would if filing on paper, and save it to a file on your hard drive. New eFiling users must first create an account by clicking on "Sign up" or "eRegister." You will be asked to select the type of filing you are making. This filing is considered a "Comment on Filing." In addition, there is a "Quick Comment" option available, which is an easy method for interested persons to submit text only comments on a project. The Quick-Comment User Guide can be viewed at <http://www.ferc.gov/docs-filing/efiling/quick-comment-guide.pdf>.
