

the Commission issued a *Notice of Intent to Prepare an Environmental Impact Statement for the Planned Midcontinent Supply Header Interstate Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions*. On March 22, 2017, the Commission issued a *Supplemental Notice* to seek comments on additional facilities identified by Midship Pipeline as part of the MIDSHP Project. The notices were sent to federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; affected property owners; other interested parties; and local libraries and newspapers. Major issues raised include the potential for induced seismicity; possible alternative routes; and potential impacts on agricultural lands, cattle grazing, threatened and endangered species, surface water and groundwater resources, air quality and noise, and safety. The U.S. Environmental Protection Agency is a cooperating agency in the preparation of the EIS.

Additional Information

In order to receive notification of the issuance of the EIS and to keep track of all formal issuances and submittals in specific dockets, the Commission offers a free service called eSubscription. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents via email. Go to www.ferc.gov/docs-filing/esubscription.asp.

Additional information about the MIDSHP Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC Web site (www.ferc.gov). Using the eLibrary link, select General Search from the eLibrary menu, enter the selected date range and Docket Number excluding the last three digits (*i.e.*, CP17-458), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at FERCOnlineSupport@ferc.gov. The eLibrary link on the FERC Web site also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.

[Docket Nos. CP17-40-000 and CP17-40-001]

Spire STL Pipeline LLC; Supplemental Notice of Availability of the Environmental Assessment and Reopening of Comment Period for the Proposed Spire STL Pipeline Project

On September 29, 2017, the Federal Energy Regulatory Commission (FERC or Commission) issued in Docket Nos. CP17-40-000 and CP17-40-001 a *Notice of Availability of the Environmental Assessment for the Proposed Spire STL Pipeline Project*. FERC has subsequently learned that delivery of the CD version of the Environmental Assessment (EA) was delayed and as a result some stakeholders did not receive a copy of the EA until after the comment period had closed. In recognition of the delay in receipt, this supplemental notice announces the opening of another comment period.

A CD containing an electronic copy of the EA was previously mailed to you. Alternatively, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link and searching for accession number 20170929-3022; the direct link is as follows: http://elibrary.FERC.gov/idmws/file_list.asp?accession_num=20170929-3022.

The enclosure contains the original notice of availability describing the project and the methods you can use to file your comments to the Commission. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before December 22, 2017.

Dated: November 22, 2017.
