BILLING CODE 6210–01–S

FEDERAL RESERVE SYSTEM

Notice of Proposals to Engage in Permissible Nonbanking Activities or to Acquire Companies That are Engaged in Permissible Nonbanking Activities

The companies listed in this notice have given notice under section 4 of the Bank Holding Company Act (12 U.S.C. 1843) (BHC Act) and Regulation Y (12 CFR Part 225) to engage *de novo*, or to acquire or control voting securities or assets of a company, including the companies listed below, that engages either directly or through a subsidiary or other company, in a nonbanking activity that is listed in § 225.28 of Regulation Y (12 CFR 225.28) or that the Board has determined by Order to be closely related to banking and permissible for bank holding companies. Unless otherwise noted, these activities will be conducted throughout the United States.

Each notice is available for inspection at the Federal Reserve Bank indicated. The notice also will be available for inspection at the offices of the Board of Governors. Interested persons may express their views in writing on the question whether the proposal complies with the standards of section 4 of the BHC Act. Additional information on all bank holding companies may be obtained from the National Information Center website at www.ffiec.gov/nic/.

Unless otherwise noted, comments regarding the applications must be received at the Reserve Bank indicated or the offices of the Board of Governors not later than February 27, 2009.

A. Federal Reserve Bank of New York (Ivan Hurwitz, Bank Applications Officer) 33 Liberty Street, New York, New York 10045–0001:

1. *Investors Bancorp, MHC and Investors Bancorp, Inc.*, both of Short

Hills, New Jersey, to acquire 100 percent of the voting shares of American Bancorp of New Jersey, and indirectly acquire voting shares of American Bank of New Jersey, both of Bloomfield, New Jersey, and thereby engage in operating a savings association, pursuant to section 225.28(4)(ii) of Regulation Y.

Board of Governors of the Federal Reserve System, January 29, 2009.

Robert deV. Frierson,

Deputy Secretary of the Board.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404–639–5960 or send comments to Maryam I. Daneshvar, CDC Acting Reports Clearance Officer, 1600 Clifton Road, MS D–74, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

Assessment and Monitoring of Breastfeeding-Related Maternity Care Practices in Intra-partum Care Facilities in the United States and Territories

(OMB Control No. 0920–0743, Exp. 7/31/2009)—Revision—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Substantial evidence demonstrates the health benefits of breastfeeding. Breastfeeding mothers have lower risks of breast and ovarian cancers and type 2 diabetes, and breastfeeding better protects infants against infections, chronic diseases like diabetes and obesity, and even childhood leukemia and sudden infant death syndrome (SIDS). However, the groups that are at higher risk for diabetes, obesity, and poor health overall persistently have the lowest breastfeeding rates.

Health professionals recommend at least 12 months of breastfeeding, and Healthy People 2010 establishes specific national breastfeeding goals. In addition to increasing overall rates, a significant public health priority in the U.S. is to reduce variation in breastfeeding rates across population subgroups. For example, in 2005, nearly three-quarters of white mothers started breastfeeding, but only about half of black mothers did so.

The health care system is one of the most important and effective settings to improve breastfeeding. In 2007, CDC conducted the first national survey of Maternity Practices in Infant Nutrition and Care (known as the mPINC Survey) in health care facilities (hospitals and free-standing childbirth centers). This survey was designed to provide baseline information and to be repeated again in 2009. It inquired about patient education and support for breastfeeding throughout the maternity stay as well as staff training and maternity care policies.

Prior to the fielding of the 2009 iteration, CDC has been requested to provide a report to OMB on the results of the 2007 collection. In this report, CDC will provide these results by geographic and demographic characteristics and a summary of activities that resulted from the survey.

Because the 2009 mPINC survey repeats the prior iteration, the methodology, content, and administration of it will match those used before. The census design does not employ sampling methods. Facilities are identified by using the American Association of Birth Centers (AABC) and the American Hospital Association (AHA) Annual Survey of Hospitals. In addition to all facilities that participated in 2007, the 2009 survey will include those that were invited but did not
