Proposed Collection

National Institute of Mental Health Recruitment Milestone Reporting System-Existing collection in use without OMB control number—National Institute of Mental Health (NIMH), National Institute of Health (NIH).

Need and Use of Information Collection: The Recruitment Milestone Reporting (RMR) System allows NIMH

staff to monitor more accurately the recruitment of participants in NIMH-sponsored clinical research studies that plan to enroll 150 or more human subjects in a single study. Clinical studies can have difficulty recruiting, and accurate and timely reporting is the best way to ensure proper use of the grant funds. Investigators develop a recruitment plan that includes tri-yearly milestones for recruitment of the total study population, and for recruitment of racial and ethnic minority participants. Once recruitment is scheduled to begin, investigators report actual progress on recruitment milestones three times per year, by April 1, August 1, and

December 1. The primary use of this information is to ensure that realistic recruitment targets are established from the onset of a project, and that these targets are met throughout the course of the research. By ensuring timely recruitment into clinical research studies, NIMH can reduce the need to extend timelines or supplement funds in order to complete the research project, and potentially increase efficiency in our funding process.

OMB approval is requested for 3 years. There are no costs to respondents other than their time. The total estimated annualized burden hours are 2,531.

ESTIMATED ANNUALIZED BURDEN HOURS

Form	Type of respondent	Number of respondents	Frequency of response	Average burden per response (in hours)	Total annual burden hours
NIMH Recruitment Milestone Reporting.	Principal Investigators/Research Assistant.	675	3	75/60	2,531

Dated: February 18, 2014.

Keisha Shropshire,

Project Clearance Officer, NIMH, NIH.
