

constructed access and patrol road to support the fence section would be 5.2 miles in length. The first proposed section would be adjacent to and on the Otay Mountain Wilderness (OMW), and would follow the U.S./Mexico international border where topography allows, deviating from the border to follow a newly constructed access road where conditions warrant, such as descent to canyon bottoms. The OMW is on public lands administered by the Bureau of Land Management (BLM). The second proposed section would be approximately 0.8 miles in length and would connect with existing border fence west of Tecate, California. This fence section would be constructed along the border at the southern base of Tecate Peak. This proposed fence section would encroach on a mix of privately owned land parcels and public land administered by the BLM.

Under the No Action Alternative, a proposed tactical infrastructure would not be built and there would be no change in fencing, access roads, or other facilities along the U.S./Mexico international border in the proposed project locations.

Public Open House

CBP will hold a public open house to provide information and invite comments on the Proposed Action and the Draft EIS. A public open house will be held on January 17, 2008, at the San Diego Convention Center, San Diego, CA 92101. The public open house will be held from 4:30 p.m. to 8 p.m. Border Patrol agents and Draft EIS preparers will be available during the open house. Anyone wishing to submit comments

may do so orally or in writing at the open house. Comments received at the open house will be recorded and transcribed into the public record for the open house. Commentors must provide their names and addresses. Spanish language translation will be provided. Those who plan to attend the public open house and will need special assistance, such as sign language interpretation or other reasonable accommodation, should notify the U.S. Army Corps of Engineers (see **FOR FURTHER INFORMATION CONTACT**) at least 3 business days in advance. Include contact information, as well as information about specific needs. Those unable to attend may submit comments as described under "Request for Comments" below.

Request for Comments

CBP requests public participation in the EIS process. The public may participate by attending the public open house and submitting comments on the Draft EIS. CBP will consider all comments submitted during the public comment period, and subsequently will prepare the Final EIS. CBP will announce the availability of the Final EIS and once again give interested parties an opportunity to review the document. When submitting comments, please include name and address, and identify comments as for the San Diego Sector EIS. Please use only one of the following methods:

(a) Attendance and submission of comments at the Public Open House to be held January 17, 2008 at the San Diego Convention Center in San Diego, CA.

(b) Electronically through the Web site at <http://www.BorderFenceNEPA.com>.

(c) By e-mail to: SDcomments@BorderFenceNEPA.com.

(d) By mail to: San Diego Sector Tactical Infrastructure EIS, c/o e²M, 2751 Prosperity Avenue, Suite 200, Fairfax, Virginia 22031.

(e) By fax to: (757) 257-7643.

Comments on the Draft EIS should be submitted by February 19, 2008.

Dated: December 28, 2007.

Robert F. Janson,

Acting Executive Director, Asset Management, U.S. Customs and Border Protection.

BILLING CODE 4210-67-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[UT-080-2005-9141-EJ]

Notice of Availability of a Final Environmental Impact Statement for the Chapita Wells—Stagecoach Area (CWSA), Uintah County, UT

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321 *et seq.*) and the Federal Land Policy and Management Act of 1976 (FLPMA) (43 U.S.C. 1701 *et seq.*), the Bureau of Land Management (BLM) has prepared a Final Environmental Impact Statement (FEIS) for the Chapita Wells—Stagecoach Area, Uintah County, Utah.

DATES: The 30-day public availability period will begin on the date the Environmental Protection Agency (EPA) publishes its Notice of Availability (NOA) in the **Federal Register**. To assure that public comments will be considered, the BLM must receive written comments on the FEIS on or before the end of the comment period at the address listed below.

FOR FURTHER INFORMATION CONTACT: Stephanie Howard, Project Manager, BLM Vernal Field Office, 170 South 500 East, Vernal, UT 84078. Ms. Howard may also be reached at 435-781-4400.

ADDRESSES: Comments on the FEIS may be submitted by any of the following methods:

- *Mail:* Bureau of Land Management, Vernal Field Office, 170 South 500 East, Vernal, Utah 84078.

- *E-mail:* UT_Vernal_Comments@blm.gov.

- *Fax:* (435) 781-4410.

Please reference the CWSA when submitting your comments. Comments and information submitted on the FEIS for the CWSA, Uintah County, Utah, including names, e-mail addresses, and street addresses of respondents, will be available for public review at the Vernal Field Office address listed above. The BLM will not accept anonymous comments. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you

should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so. All submissions from organizations and businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

SUPPLEMENTARY INFORMATION: The CWSA involves approximately 31,872 acres located in Townships 8 to 10 South, Ranges 22 and 23 East, Salt Lake Base Meridian, about 30 miles south of Vernal, in Uintah County, Utah. Approximately 22,693 acres (71%) of surface and mineral estate are administered by the BLM; approximately 6,577 acres (21%) are owned by the Ute Tribe and/or its allottees and administered by the BIA; approximately 1,914 acres (6%) are administered by the State of Utah's School and Institutional Trust Lands Administration (SITLA); and the remaining 688 acres (2%) are privately owned.

The CWSA encompasses an already developed oil and gas field. As of March 2004, the CWSA contained approximately 325 existing gas wells. Also, about 121 miles of roads and 115 miles of pipeline have been constructed within the region.

A Notice of Intent (NOI) to prepare the EIS was published in the **Federal Register** on October 1, 2004, which announced the beginning of the scoping period. Nine scoping letters were received from agencies and organizations during the scoping period. The scoping comments were taken into account during the drafting of the EIS. A summary of the scoping comments can be found in section 1.6 of the FEIS.

A NOA for the Draft EIS was published in the **Federal Register** on January 20, 2006. During the public comment period, eight comment letters were received from various agencies and organizations. Comments received on the Draft EIS, and the responses to those comments, are found in Chapter 6 of the FEIS.

The FEIS analyzes the effects of a natural gas and oil development scenario within the CWSA that is conceptual in nature. The final location of well pads, roads, and pipelines will be determined through future site-specific assessments required for each facility. Any additional environmental analyses will be tiered to this FEIS.

The FEIS analyzes the impacts of the Proposed Action and the No Action Alternative. The following is a summary of the alternatives:

Alternative A—Proposed Action (BLM's preferred alternative): The proposed action includes up to 627 natural gas wells, about 99.5 miles of new roads and 104.5 miles of pipelines, and 5,000 hp of compression. EOG Resources Inc. proposes to drill 627 wells at the rate of 90 wells per year over a period of seven years, or until the resource base is fully developed. Of this total number, 473 wells would be drilled at new locations and 154 wells would be twin wells. In all, approximately 1,735 acres, or 5% of the total project area, would be disturbed by the proposal.

The Proposed Action incorporates standard operating procedures and applicant-committed best management practices currently employed on BLM-administered public lands in the Uintah Basin that mitigate impacts to the environment.

Alternative B—No Action: Oil and gas development on Federal lands proposed under Alternative A would not be implemented. However development would continue to occur under Applications for Permits to Drill (APDs) previously approved by the BLM based upon other NEPA documents. Development would also continue on non-Federal lands. An additional 148 wells would be drilled on 20-acre and 40-acre spacing patterns (91 new wells and 57 twin wells).

Seven additional alternatives were considered but eliminated from detailed analysis because of technical or economical reasons, because of their resource impact, or because they did not meet the purpose and need of BLM's proposed action.

Copies of the FEIS for the CWSA have been sent to Federal, State, and local government agencies, and to parties who commented during the public comment period.

William Stringer,

Field Office Manager.
