

As part of our decisionmaking process regarding a GE organism's regulatory status, APHIS prepares a plant pest risk assessment to assess its plant pest risk and the appropriate environmental documentation—either an environmental assessment (EA) or an environmental impact statement (EIS)—in accordance with the National Environmental Policy Act (NEPA), to provide the Agency with a review and analysis of any potential environmental impacts associated with the petition request. For petitions for which APHIS prepares an EA, APHIS will follow our published process for soliciting public comment (see footnote 1) and publish a separate notice in the **Federal Register** announcing the availability of APHIS' EA and plant pest risk assessment. Should APHIS determine that an EIS is necessary, APHIS will complete the NEPA EIS process in accordance with Council on Environmental Quality regulations (40 CFR parts 1500 through 1508) and APHIS' NEPA implementing regulations (7 CFR part 372).

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

On behalf of the Committee for the Implementation of Textile Agreements (CITA), the Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: International Trade Administration.

Title: Interim Procedures for Considering Requests under the Commercial Availability Provision of the United States–Colombia Trade Promotion Agreement.

Form Number(s): N/A.

OMB Control Number: 0625–0272.

Type of Request: Regular submission.

Burden Hours: 89.

Number of Respondents: 16 (10 for Requests; 3 for Responses; 3 for Rebuttals).

Average Hours per Response: 8 hours per Request; 2 hours per Response; and 1 hour per Rebuttal.

Needs and Uses: Title II, Section 203(o) of the United States–Colombia Trade Promotion Agreement Implementation Act (the “Act”) [Public Law 112–42] implements the commercial availability provision provided for in Article 3.3 of the United States–Colombia Trade Promotion Agreement (the “Agreement”). The Agreement entered into force on May 15, 2012. Subject to the rules of origin in Annex 4.1 of the Agreement, and pursuant to the textile provisions of the Agreement, a fabric, yarn, or fiber produced in Colombia or the United States and traded between the two countries is entitled to duty-free tariff treatment. Annex 3–B of the Agreement also lists specific fabrics, yarns, and fibers that the two countries agreed are not available in commercial quantities in a timely manner from producers in Colombia or the United States. The

fabrics listed are commercially unavailable fabrics, yarns, and fibers, which are also entitled to duty-free treatment despite not being produced in Colombia or the United States.

The list of commercially unavailable fabrics, yarns, and fibers may be changed pursuant to the commercial availability provision in Chapter 3, Article 3.3, Paragraphs 5–7 of the Agreement. Under this provision, interested entities from Colombia or the United States have the right to request that a specific fabric, yarn, or fiber be added to, or removed from, the list of commercially unavailable fabrics, yarns, and fibers in Annex 3–B of the Agreement.

Chapter 3, Article 3.3, paragraph 7 of the Agreement requires that the President “promptly” publish procedures for parties to exercise the right to make these requests. Section 203(o)(4) of the Act authorizes the President to establish procedures to modify the list of fabrics, yarns, or fibers not available in commercial quantities in a timely manner in either the United States or Colombia as set out in Annex 3–B of the Agreement. The President delegated the responsibility for publishing the procedures and administering commercial availability requests to the Committee for the Implementation of Textile Agreements (“CITA”), which issues procedures and acts on requests through the U.S. Department of Commerce, Office of Textiles and Apparel (“OTEXA”) (See Proclamation No. 8818, 77 FR 29519, May 18, 2012).

The intent of the Commercial Availability Procedures is to foster the use of U.S. and regional products by implementing procedures that allow products to be placed on or removed from a product list, on a timely basis, and in a manner that is consistent with normal business practice. The procedures are intended to facilitate the transmission of requests; allow the market to indicate the availability of the supply of products that are the subject of requests; make available promptly, to interested entities and the public, information regarding the requests for products and offers received for those products; ensure wide participation by interested entities and parties; allow for careful review and consideration of information provided to substantiate requests and responses; and provide timely public dissemination of information used by CITA in making commercial availability determinations.

CITA must collect certain information about fabric, yarn, or fiber technical specifications and the production capabilities of Colombian and U.S.

textile producers to determine whether certain fabrics, yarns, or fibers are available in commercial quantities in a timely manner in the United States or Colombia, subject to Section 203(o) of the Act.

Affected Public: Business or other for-profit.

Frequency: Varies.

Respondent's Obligation: Voluntary.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: August 10, 2015.

Glenna Mickelson,

Management Analyst, Office of the Chief Information Officer.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Advance Monthly Retail Trade Survey (MARTS).

OMB Control Number: 0607–0104.

Form Number(s): SM–4412A, SM–4412AE, SM–4412AS, and SM–7212A.

Type of Request: Extension of a currently approved collection.

Number of Respondents: 4,900.

Average Hours per Response: 5 minutes.

Burden Hours: 4,900.

Needs and Uses: The Advance Monthly Retail Trade Survey (MARTS) is administered monthly to a sample of employer firms (i.e., businesses with paid employees) with establishments located in the United States and classified in retail trade and/or food services sectors as defined by the North American Industry Classification System (NAICS). MARTS began in 1953 as a monthly survey for activity taking place during the previous month. MARTS was developed in response to requests by government, business, and other users to provide an early indication of current retail trade activity

in the United States. Retail sales are one of the primary measures of consumer demand for both durable and non-durable goods. MARTS also provides an estimate of monthly sales at food service establishments and drinking places.

The results from MARTS provide the earliest possible look at consumer spending. Without MARTS, the Census Bureau's earliest measure of retail sales is the “preliminary” estimate from the full monthly sample, Month Retail Trade Survey (MRTS), released approximately 6 weeks after the end of the reference month. Advance estimates are released approximately 9 working days after the reference month.

This survey uses a multi-mode data collection process that includes Internet reporting (Centurion), fax, telephone, and mail. The survey requests sales and e-commerce sales for the month just ending. If reporting data for a period other than the calendar month, the survey asks for the period's length (4 or 5 weeks) and the date on which the period ended. The survey also asks for the number of establishments covered by the data provided and whether or not the sales data provided are estimates or more accurate “book” figures.

The survey results are published on the Census Bureau's Web site, <http://www.census.gov/retail>.

The U.S. Census Bureau tabulates the collected data to provide, with measured reliability, statistics on United States retail sales. These estimates are especially valued by data users because of their timeliness. There would be approximately a 6 week delay in the availability of these statistics if this survey were not conducted.

The sales estimates are used by the Bureau of Economic Analysis (BEA), Council of Economic Advisers (CEA), Federal Reserve Board (FRB), Bureau of Labor Statistics (BLS), and other government agencies, as well as business users in formulating economic decisions.

BEA uses the survey results as critical inputs to the calculation of the personal consumption expenditures component (PCE) of Gross Domestic Product (GDP). Specifically, BEA Chief Statistician states “this important survey is our main data source for key components of BEA's economic statistics. Data on retail sales are used to prepare monthly estimates of personal consumption expenditures component of gross domestic product for all PCE goods categories, except tobacco, prescription drugs, motor vehicles, and gasoline end oil. These estimates are also published each month in the Personal Income and Outlays press release”. In first quarter 2015, PCE comprised 68 percent of total
