SUPPLEMENTARY INFORMATION: The Department awards approximately \$1.3 billion annually for Career and Technical Education (CTE) State formula grants authorized under Perkins V. Perkins V assists States and outlying areas in expanding and improving CTE in secondary schools, technical schools, and community colleges. Each State uses program funds to support a variety of CTE programs and activities developed in accordance with its State plan.

The enactment of Perkins V in 2018 highlighted the provision of WBL¹ as an important strategy for preparing CTE students for further learning and careers. For example, the new law amended the definition of CTE to include WBL as a component (20 U.S.C. 2302(5)); directed States to identify in their State plans how individuals who are members of special populations² will be provided instruction and WBL opportunities in integrated settings that support competitive, integrated employment (20 U.S.C. 2342(d)(9)(E)); and permitted States to use State leadership funds to establish and expand WBL opportunities that are aligned to CTE programs and programs of study (20 U.S.C. 2344(b)(18)), as well as to facilitate the inclusion of WBL opportunities (including internships, externships, and simulated work environments) in CTE programs of study (20 U.S.C. 2344(b)(4)(C)).

At the local level, amendments made by the 2018 law required eligible recipients to describe in their applications for funds the WBL opportunities that they will provide to students participating in CTE programs and how they will work with representatives from employers to develop or expand WBL opportunities for CTE students (20 U.S.C. 2354(b)(6)). Providing a continuum of WBL opportunities, including simulated work environments, is also an authorized use of the funds by local recipients (20 U.S.C. 2355(b)(5)(E)). Importantly, the new law also included participation in WBL by secondary CTE concentrators as a new optional indicator of State performance (20 U.S.C. 2323(b)(2)(A)(iv)(I)(cc)). In the State plans submitted during summer 2020, 26 States selected this indicator as one
