AGENCY: Coast Guard, Department of Homeland Security (DHS).

| DHS | Department of Homeland Security |
| FR | Federal Register |
| NPRM | Notice of proposed rulemaking |
| § | Section |
| U.S.C. | United States Code |

II. Background Information and Regulatory History

The Coast Guard is issuing this temporary rule without prior notice and opportunity to comment pursuant to authority under section 4(a) of the Administrative Procedure Act (APA) (5 U.S.C. 553(b)). This provision authorizes an agency to issue a rule without prior notice and opportunity to comment when the agency for good cause finds that those procedures are “impracticable, unnecessary, or contrary to the public interest.” Under 5 U.S.C. 553(b)(B), the Coast Guard finds that good cause exists for not publishing a notice of proposed rulemaking (NPRM) with respect to this rule because the event sponsor was late in submitting the marine event application. This late submission did not give the Coast Guard enough time to publish an NPRM followed by a final rule before the effective date thus making it impracticable to publish an NPRM. The event sponsor advised that the event is in correlation with a festival bringing together Perth Amboy and South Amboy, NJ, to honor Independence Day. Any change to the date of the event would cause economic hardship on the event sponsor, negatively impacting other activities being held in conjunction with the event.

The location of the event is centrally located between both Perth Amboy and South Amboy which is more advantageous for the event spectators and sponsors. In addition it has less of an impact on vessel traffic within Raritan Bay because the location is out of the major shipping lanes.

III. Legal Authority and Need for Rule

The Coast Guard is issuing this rule under authority in 46 U.S.C. 70034 (previously 33 U.S.C. 1231). The COTP New York has determined this temporary safety zone is necessary to ensure the safety of spectators and vessels from the hazards associated with the fireworks display.

IV. Discussion of the Rule

This rule establishes a temporary safety zone on the waters of Raritan Bay near Perth Amboy, NJ, for a fireworks event on July 2, 2022. If the event is unable to happen on July 2, 2022, due to inclement weather, the fireworks event will instead occur on July 3, 2022. All persons and vessels shall comply with the instruction of the COTP New York or a designated representative during the enforcement of the temporary safety zone. Entering into, transiting through, or anchoring within the temporary safety zone is prohibited unless authorized by the COTP New York or a designated representative.

Based on the inherent hazards associated with fireworks, the COTP New York has determined that fireworks launches in close proximity to water crafts pose a significant risk to public safety and property. The combination of increased number of recreational vessels, congested waterways, darkness punctuated by bright flashes of light, and debris, especially burning debris falling on passing or spectator vessels, has the potential to result in serious injuries or fatalities. This temporary safety zone will restrict vessels from a portion of Raritan Bay around the location of the fireworks launch platform before, during and immediately after the fireworks display.

The Coast Guard determined that this regulated area will not have significant impact on vessel traffic due to its temporary nature and limited size and the fact that vessels are allowed to transit the navigable waters outside of the regulated area.

V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on a number of these statutes and
