

years covered by this clearance, data will be collected via in-person interviews in American Samoa, Puerto Rico, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI).

III. Data

OMB Control Number: 0648–0646.
Form Number(s): None.

Type of Review: Regular submission [Revision and extension of an existing information collection].

Affected Public: Individuals or households.

Estimated Number of Respondents: 9,840.

Estimated Time per Response: 20 minutes per response.

Estimated Total Annual Burden Hours: 1,093 hours.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

Respondent's Obligation: Voluntary.

Legal Authority: Coral Reef Conservation Act of 2000.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–JS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Socio-Economic Survey of Hired Captains and Crew in New England and Mid-Atlantic Commercial Fisheries

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before March 26, 2021.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at Adrienne.thomas@noaa.gov. Please reference OMB Control Number 0648–0636 in the subject line of your comments. Do not submit Confidential Business Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or specific questions related to collection activities should be directed to Lisa L. Colburn, Social Scientist, NOAA/Northeast Fisheries Science Center, (401–782–3253), lisa.l.colburn@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a revision to an approved collection. This collection is currently approved for implementation in New England and the Mid-Atlantic regions by NOAA National Marine Fisheries Service, Northeast Fisheries Science Center's Social Sciences Branch (NEFSC–SSB). The NEFSC–SSB, in collaboration with the Southeast Fisheries Science Center Social Science Research Group (SEFSC–SSRG), requests a revision to expand the

geographic scope of the survey to include South Atlantic and Gulf of Mexico regions, an associated collection title change (“Socio-Economic Survey of Hired Captains and Crew in New England, Mid-Atlantic, South Atlantic and Gulf of Mexico Commercial Fisheries”), and to make minor revisions to the survey form that address regional differences in fisheries. The NEFSC and SEFSC seek to conduct surveys to provide for the ongoing collection of social and economic data related to the fishing industries in those states. The purpose of this survey is to assess and track over time the social and economic conditions of commercial fishing crews and hired captains for which little is known. This survey will provide data on social and economic impacts for this population and the changes in fisheries as a result of regulatory changes. Data to be collected include demographic information on crew, wage calculations systems, individual and community well-being, fishing practices, job satisfaction, job opportunities, and attitudes toward fisheries management. The National Environmental Policy Act (NEPA) and Magnuson-Stevens Conservation and Management Act (MSA) both contain requirements for considering the social and economic impacts of fishery management decisions. There is a need to understand how such fishery management policies and programs will affect the social and economic characteristics of those involved in the commercial fishing industry. To help meet these requirements of NEPA and MSA, the NEFSC and SEFSC will collect data on an ongoing basis to track how socio-economic characteristics of fisheries are changing over time and the impact of fishery management policies and programs implemented in New England, Mid-Atlantic, South Atlantic and Gulf of Mexico regions.

II. Method of Collection

This information will be collected through in-person intercept interviews and telephone.

III. Data

OMB Control Number: 0648–0636.
Form Number(s): None.

Type of Review: Regular (revision of a previously approved information collection).

Affected Public: Individuals, households; Business or other for-profit organizations.

Estimated Number of Respondents: 946.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 236.5.

Estimated Total Annual Cost to Public: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: NEPA and MSA.

IV. Request for Comments

We are soliciting public comments to permit the Department/Bureau to: (a) Evaluate whether the proposed information collection is necessary for the proper functions of the Department, including whether the information will have practical utility; (b) Evaluate the accuracy of our estimate of the time and cost burden for this proposed collection, including the validity of the methodology and assumptions used; (c) Evaluate ways to enhance the quality, utility, and clarity of the information to be collected; and (d) Minimize the reporting burden on those who are to respond, including the use of automated collection techniques or other forms of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you may ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

National Oceanic and Atmospheric Administration

[RTID 0648-XA816]

Takes of Marine Mammals Incidental to Specified Activities; Taking Marine Mammals Incidental to Oil and Gas Activities in Cook Inlet, Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of Letter of Authorization.

SUMMARY: Pursuant to the Marine Mammal Protection Act (MMPA), as amended, and implementing regulations, NMFS issued a Letter of Authorization (LOA) to Hilcorp Alaska LLC (Hilcorp) to take marine mammals incidental to oil and gas activities in Cook Inlet, Alaska.

DATES: Applicable until April 21, 2021.

FOR FURTHER INFORMATION CONTACT: Sara Young, Office of Protected Resources, NMFS, (301) 427-8401.

SUPPLEMENTARY INFORMATION:

Background

Sections 101(a)(5)(A) and (D) of the MMPA (16 U.S.C. 1361 *et seq.*) direct the Secretary of Commerce (as delegated to NMFS) to allow, upon request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and either regulations are issued or, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

An incidental take authorization shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses (where relevant), and if the permissible methods of taking and requirements pertaining to the mitigation, monitoring and reporting of such takings are set forth.

NMFS has defined “negligible impact” in 50 CFR 216.103 as an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival.

The MMPA states that the term “take” means to harass, hunt, capture, kill or attempt to harass, hunt, capture, or kill any marine mammal.

Except with respect to certain activities not pertinent here, the MMPA defines “harassment” as: Any act of pursuit, torment, or annoyance, which (i) has the potential to injure a marine mammal or marine mammal stock in the wild (Level A harassment); or (ii) has the potential to disturb a marine mammal or marine mammal stock in the wild by causing disruption of behavioral patterns, including, but not limited to, migration, breathing, nursing, breeding, feeding, or sheltering (Level B harassment).

Summary

NMFS issued regulations governing the take of 11 species of marine

mammal, by Level A and Level B harassment, incidental to Hilcorp’s oil and gas activities on July 31, 2019 (84 FR 37442). These regulations include mitigation, monitoring, and reporting requirements for the incidental take of marine mammals during the specified activities. As further detailed in the regulations (50 CFR 217.167), adaptive management measures allow NMFS to modify or renew LOAs as necessary if doing so creates a reasonable likelihood of more effective mitigation and monitoring. NMFS issued the first LOA to Hilcorp under these regulations on July 31, 2019. NMFS published a **Federal Register** notice seeking public comment on its proposal to modify the Year 1 LOA issued to Hilcorp on August 16, 2019 (84 FR 41957) and published a notice of modification on October 4, 2019 (84 FR 53119). The Year 1 LOA expired on July 30, 2020. To better align with the open water season, Hilcorp applied for their Year 2 LOA with a start date of April 1, 2020, rather than waiting until the expiration of their Year 1 LOA in July 2020. NMFS reviewed the application and issued the Year 2 LOA on April 22, 2020. In error, NMFS did not publish a **Federal Register** notice upon issuance, but the signed LOA and Hilcorp’s application were published on NMFS’ website immediately upon issuance.

Authorization

NMFS has issued a LOA (available at <https://www.fisheries.noaa.gov/action/incidental-take-authorization-hilcorp-alaska-llc-oil-and-gas-activities-cook-inlet-alaska>) to Hilcorp Alaska LLC for the potential harassment of small numbers of four marine mammal species incidental to oil and gas activities in Cook Inlet, Alaska, provided the mitigation, monitoring and reporting requirements of the rulemaking are incorporated.

Dated: January 15, 2021.

Donna S. Wieting,

Director, Office of Protected Resources, National Marine Fisheries Service.
