

Committee will discuss the responses from the NRC Executive Director for Operations (EDO) to comments and recommendations included in recent ACRS reports and letters. The EDO responses are expected to be made available to the Committee prior to the meeting.

2:45 p.m.-6:45 p.m.: Preparation of ACRS Reports (Open)—The Committee will discuss proposed ACRS reports.

Saturday, March 5, 2005, Conference Room T-2B3, Two White Flint North, Rockville, Maryland

8:30 a.m.-12:30 p.m.: Preparation of ACRS Reports (Open)—The Committee will continue its discussion of proposed ACRS reports.

12:30 p.m.-1 p.m.: Miscellaneous (Open)—The Committee will discuss matters related to the conduct of Committee activities and matters and specific issues that were not completed during previous meetings, as time and availability of information permit.

Procedures for the conduct of and participation in ACRS meetings were published in the **Federal Register** on October 5, 2004 (69 FR 59620). In accordance with those procedures, oral or written views may be presented by members of the public, including representatives of the nuclear industry. Electronic recordings will be permitted only during the open portions of the meeting. Persons desiring to make oral statements should notify the Cognizant ACRS staff named below five days before the meeting, if possible, so that appropriate arrangements can be made to allow necessary time during the meeting for such statements. Use of still, motion picture, and television cameras during the meeting may be limited to selected portions of the meeting as determined by the Chairman. Information regarding the time to be set aside for this purpose may be obtained by contacting the Cognizant ACRS staff prior to the meeting. In view of the possibility that the schedule for ACRS meetings may be adjusted by the Chairman as necessary to facilitate the conduct of the meeting, persons planning to attend should check with the Cognizant ACRS staff if such rescheduling would result in major inconvenience.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, as well as the Chairman's ruling on requests for the opportunity to present oral statements and the time allotted therefor can be obtained by contacting Mr. Sam Duraiswamy, Cognizant ACRS staff (301-415-7364), between 7:30 a.m. and 4:15 p.m., e.t.

ACRS meeting agenda, meeting transcripts, and letter reports are available through the NRC Public Document Room at pdr@nrc.gov, or by calling the PDR at 1-800-397-4209, or from the Publicly Available Records System (PARS) component of NRC's document system (ADAMS) which is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> or <http://www.nrc.gov/reading-rm/doc-collections/> (ACRS & ACNW Mtg schedules/agendas).

Videoteleconferencing service is available for observing open sessions of ACRS meetings. Those wishing to use this service for observing ACRS meetings should contact Mr. Theron Brown, ACRS Audio Visual Technician (301-415-8066), between 7:30 a.m. and 3:45 p.m., e.t., at least 10 days before the meeting to ensure the availability of this service. Individuals or organizations requesting this service will be responsible for telephone line charges and for providing the equipment and facilities that they use to establish the videoteleconferencing link. The availability of videoteleconferencing services is not guaranteed.

Dated: February 16, 2005.

Andrew L. Bates,

Advisory Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

Regulatory Guide; Issuance, Availability

The U.S. Nuclear Regulatory Commission (NRC) has issued a new guide in the agency's Regulatory Guide Series. This series has been developed to describe and make available to the public such information as methods that are acceptable to the NRC staff for implementing specific parts of the NRC's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Regulatory Guide 1.202, "Standard Format and Content of Decommissioning Cost Estimates for Nuclear Power Reactors," provides guidance for licensees to use in meeting the NRC's regulatory requirements for the various cost estimates that the agency requires for different stages and methods of decommissioning. Specifically, on July 29, 1996, the NRC amended its regulations on decommissioning procedures that lead to termination of an operating license

for nuclear power reactors, as specified in Title 10, Section 50.82, of the *Code of Federal Regulations* (10 CFR 50.82). That rulemaking included changes to the decommissioning-related provisions of 10 CFR part 2, "Rules of Practice for Domestic Licensing Proceedings and Issuance of Orders"; part 50, "Domestic Licensing of Production and Utilization Facilities"; and part 51, "Environmental Protection Regulations for Domestic Licensing and Related Regulatory Functions." Regulatory Guide 1.202 describes a method that the NRC staff considers acceptable for complying with those amended regulations.

In November 2001, the NRC staff published a draft of this guide as Draft Regulatory Guide DG-1085. Following the closure of the public comment period on January 30, 2002, the staff resolved all stakeholder comments in the course of preparing the new Regulatory Guide 1.202.

The NRC staff encourages and welcomes comments and suggestions in connection with improvements to published regulatory guides, as well as items for inclusion in regulatory guides that are currently being developed. You may submit comments by any of the following methods.

Mail comments to: Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001.

Hand-deliver comments to: Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission, 11555 Rockville Pike, Rockville, Maryland 20852, between 7:30 a.m. and 4:15 p.m. on Federal workdays.

Fax comments to: Rules and Directives Branch, Office of Administration, U.S. Nuclear Regulatory Commission at (301) 415-5144.

Requests for technical information about Regulatory Guide 1.202 may be directed to C.L. Pittiglio at (301) 415-1435 or via e-mail to CLP@nrc.gov.

Regulatory guides are available for inspection or downloading through the NRC's public Web site in the Regulatory Guides document collection of the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/doc-collections/>. Electronic copies of Regulatory Guide 1.202 are also available in the NRC's Agencywide Documents Access and Management System (ADAMS) at <http://www.nrc.gov/reading-rm/adams.html>, under Accession No. ML050230008. Note, however, that the NRC has temporarily suspended public access to ADAMS so that the agency can complete security reviews of publicly

available documents and remove potentially sensitive information. Please check the NRC's Web site for updates concerning the resumption of public access to ADAMS.

In addition, regulatory guides are available for inspection at the NRC's Public Document Room (PDR), which is located at 11555 Rockville Pike, Rockville, Maryland; the PDR's mailing address is USNRC PDR, Washington, DC 20555-0001. The PDR can also be reached by telephone at (301) 415-4737 or (800) 397-4205, by fax at (301) 415-3548, and by e-mail to PDR@nrc.gov. Requests for single copies of draft or final guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future draft guides in specific divisions should be made in writing to the U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Reproduction and Distribution Services Section; by e-mail to DISTRIBUTION@nrc.gov; or by fax to (301) 415-2289. Telephone requests cannot be accommodated.

Regulatory guides are not copyrighted, and Commission approval is not required to reproduce them. (5 U.S.C. 552(a))

Dated in Rockville, Maryland, this 14th day of February, 2005.

For the U.S. Nuclear Regulatory Commission.

Carl J. Paperiello,

Director, Office of Nuclear Regulatory Research.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

21st Century Technologies, Inc.; Order of Suspension of Trading

February 18, 2005.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of 21st Century Technologies, Inc., ("21st Century") because of questions that have been raised about the accuracy of publicly disseminated information concerning, among other things, the valuations assigned to certain purported assets of 21st Century in the company's most recent Quarterly Report on Form 10-Q and in other filings with the Commission.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading

in the securities of the above listed company.

Therefore, it is ordered, pursuant to section 12(k) of the Securities Exchange Act of 1934, that trading in the above listed company is suspended for the period from 9:30 a.m. e.s.t., February 18, 2005, through 11:59 p.m. e.s.t., on March 4, 2005.

By the Commission.

Jonathan G. Katz,

Secretary.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-51209; File No. SR-Amex-2005-007]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the American Stock Exchange LLC To Require Members To Use and Maintain a Back-up Automatic Quote System in ANTE Classes

February 15, 2005.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on January 12, 2005, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in items I, II and III below, which items have been prepared by the Amex. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Amex proposes to require members to use and maintain a back-up quoting system in ANTE classes and to incorporate violations of this requirement in the Exchange's Minor Rule Violation Plan ("Plan"). The text of the proposed rule change is available on the Amex's Web site (<http://www.amex.com>), at the Amex's Office of the Secretary, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Amex included statements concerning the purpose of and basis for the

proposed rule change. The text of these statements may be examined at the places specified in item IV below. The Amex has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange seeks to amend Amex Rule 950-ANTE(l), Commentary .02(a) to require a Specialist utilizing an Exchange-approved proprietary automatic quote system in a class trading on Amex's ANTE system to have available for immediate use the Exchange-provided automatic quote system that is independent of the Specialist's primary automatic quote system. Specialists would be required to take appropriate provisions to immediately fall back onto the Exchange-provided automatic quotation system should their Exchange-approved proprietary automatic quote system fail. Included within "appropriate provisions" would be the requirement that Specialists be diligent in keeping their theoretical values current in their back-up system. This requirement would apply at all times during market hours. The Amex believes that the back-up system would need to be independent in order to ensure that any event that could cause a failure to the primary automatic quote system would not corrupt the back-up system.

The Exchange believes that the failure of a proprietary automatic quote system could result in the Amex's inability to open an entire group of listed options classes for a brief or sometimes lengthy time period. Thus, the Amex seeks to require that Specialists have the Exchange-provided automatic quotation system ready, as a back-up, should their primary automatic quote system fail. The Exchange believes that failure to comply with the proposed requirement should be subject to sanction under the Plan.

The Exchange has had the Plan since 1976, which provides a simplified procedure for the resolution of minor rule violations. Codified in Amex Rule 590, the Plan has three distinct sections: Part 1 ("General Rule Violations") which covers more substantive matters that, nonetheless, are deemed "minor" by the Commission and the Amex; Part 2 ("Floor Decorum") which covers Floor Decorum and operational matters; and Part 3 ("Reporting Violations") which
