## DEPARTMENT OF ENERGY

### Federal Energy Regulatory Commission

[Docket No. RA16-1-000]

#### **Tektronix, Inc.; Notice of Termination of Proceeding**

On May 20, 2016, Tektronix, Inc. (Tektronix) filed a Petition for Review of Denial of Adjustment Request, Request for Hearing, and Request for Confidential Treatment (Petition) under Subpart J of the Commission's Rules of Practice and Procedure.<sup>1</sup> Tektronix's Petition alleged that the Department of Energy (DOE) Office of Hearings and Appeals (OHA) improperly denied applications for various forms of relief from DOE energy conservation standards applicable to external power supplies.

On January 19, 2018, the Administrative Law Judge designated to serve as the presiding officer, Judge David H. Coffman, issued a Report to the Commission and reported that on January 16, 2018, Tektronix and DOE filed a Joint Notice of Satisfaction representing that OHA vacated its orders denying Tektronix's applications for relief. Accordingly, consistent with the Proposed Settlement filed on November 20, 2017, the Judge deemed the Petition and Tektronix's applications to OHA to be withdrawn.

Take notice that the proceeding in Docket No. RA16-1-000 is, as a consequence, deemed terminated.

Dated: April 6, 2018.

[Project No. 14873-000]

#### **Nushagak Cooperative, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications**

On March 22, 2018, Nushagak Cooperative, Inc. filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Nuyakuk River Hydroelectric Project (Nuyakuk River Project or project) to be located on the Nuyakuk River, near Dillingham, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission. The project would utilize approximately 218 acres of land owned by the U.S. Bureau of Land Management.

The proposed project would consist of the following new facilities: (1) A 100-foot-long, 20-foot-high intake structure; (2) a 1,200-foot-long, 50-foot-wide by 15-foot-tall concrete-lined power conduit; (3) a 100-foot-wide by 100-foot-long powerhouse forebay with a surface area of 0.23 acres; (4) a 100-foot-wide by 60-foot-long concrete powerhouse containing two 5 megawatt (MW) bulb-type turbines for a total installed capacity of 10 MW; (5) a 100-foot-wide, 500-foot-long tailrace discharging to the Nuyakuk River; (6) a project substation; (7) a 135-mile-long, 25 kilovolt transmission line extending from the substation to the communities of Aleknagik, Koliganek, Stuyahok, Ekwok, and Levelock; and (8) appurtenant facilities. The estimated annual generation of the Nuyakuk River Project would be 72.8 gigawatt-hours.
