Food and Nutrition Service

Title: Assessment of the Collection, Analysis, Validation, and Reporting of SNAP Employment and Training Data project.

OMB Control Number: 0584–New.

Summary of Collection: Section 17 [7 U.S.C. 2026] (a)(1) of the Food and Nutrition Act of 2008, as amended, provides general legislative authority for the planned data collection. It authorizes the Secretary of Agriculture to enter into contracts with private institutions to undertake research that will help to improve the administration and effectiveness of SNAP in delivering nutrition-related benefits. Under the Supplemental Nutrition Assistance Program (SNAP), States are required to operate an Employment and Training (E&T) program to help participants gain skills, education, training, and experience that lead to employment and greater economic self-sufficiency.

Need and Use of the Information: FNS will: (1) Identify and describe the current State and Federal systems that collect, validate, and analyze E&T data; (2) assess the current and future E&T data needs of Federal, Regional, and State staff; and (3) recommend a plan to improve how Federal, Regional, and State staff collect and use data for E&T program improvement and reporting. The data collection effort will culminate in a comprehensive final report of recommendations for FNS to meet its current and future data needs for the SNAP E&T program. The report will describe the current Federal, Regional, and State data systems and processes; the current and future data needs and goals of SNAP E&T; and the gaps between the current systems and data needs.

In addition, the report will recommend methods to address these gaps through changes to data systems and information technology (IT) solutions, improved business processes, and expanded technical assistance.

Description of Respondents: State, Local, Tribal Government, Private Sector (Business-for-profit and not-for-profit).

Number of Respondents: 284.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 553.

Food and Nutrition Service

Title: Supplemental Nutrition Assistance Program Emergency Allotments (COVID–19).

OMB Control Number: 0584–0652.

Summary of Collection: The Families First Coronavirus Response Act of 2020 Public Law 116–127, enacted March 18, 2020, includes a general provision that allows the Department of Agriculture to issue emergency allotments (EA). This is based on a public health emergency declaration by the Secretary of Health and Human Services under section 319 of the Public Health Service Act related to an outbreak of COVID–19 when a State has also issued an emergency or disaster declaration. This collection is for activities associated with administering emergency allotments.

Need and Use of the Information: State agencies impacted by COVID–19 may submit a waiver request to their FNS Regional Office for approval to provide an EA to households to bring all households up to the maximum benefit due to pandemic related economic conditions. Because the EA waiver increases the monthly benefit of participants above the amount originally anticipated for this fiscal year, the amount of benefits issued and redeemed must be carefully tracked to ensure FNS does not exceed its appropriation. As such, it is necessary for FNS to collect information from State agencies.

Description of Respondents: State, Local, or Tribal Government.

Number of Respondents: 53.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 763.

SUPPLEMENTARY INFORMATION:

Title of Collection: County Committee Election.

OMB Control Number: 0560-0229.

Expiration Date of Approval: January 31, 2021.

Type of Request: Revision.

Abstract: This information collection is necessary to effectively allow farmers and ranchers to nominate potential candidates using the form FSA-669A for the FSA county committee election in accordance with the requirements as authorized by the Soil Conservation and Domestic Allotment Act, as amended. Specifically, FSA uses the information provided by the nominee annually or, if needed, throughout the year for special elections to create ballots for FSA county committee elections. Elections for FSA county committees are held each year; therefore, nominations for eligible nominees are requested each

year. Any individual who meets the qualifications mentioned in form FSA-669A may be nominated by another person or by themselves. The form FSA-669A is used to collect the information for nominations; it requires the name and address of the nominee and the signatures of both the nominee and the person nominating the individual to be a nominee (only one signature is required for self-nominated individuals). The nominee must be eligible to vote in the designated FSA county committee election, eligible to hold the office of FSA county committee member, and willing to serve, if elected. For more information about FSA county committees, including elections, nominations, eligible voters, eligibility, and other related information, see the regulations in 7 CFR part 7. In addition, the form also includes a voluntary request for race, ethnicity, and gender information from the nominee. FSA is also using the form FSA-669A-3, Nomination Form for Urban Agriculture FSA Committee Election, to establish Urban Agriculture FSA County Committees in some cities.

The number of respondents increased by 500 in this collection due to more respondents interested in participating in the FSA county committee's election by either becoming an eligible voter or a County FSA committee member. The travel times decreased by 4,075 hours that have been removed from the collection. The respondents go to the county offices to do regular and customary business with FSA; this means no travel time is required specifically for the information collection and therefore, it is no longer included in the burden hour reporting.

For the following estimated total annual burden on respondents, the formula used to calculate the total burden hours is the estimated average time per response multiplied by the estimated total annual of responses.

Estimate of Average Time to Respond: Public reporting burden for collecting information under this notice is estimated to average 0.25 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information for all respondents.

Type of Respondents: Individuals (eligible voters).

Estimated Number of Respondents: 10,500.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Responses: 10,500.

Estimated Average Time per Response: 0.25 hours.

Estimated Total Annual Burden on Respondents: 2,625 hours.

FSA is requesting comments on all aspects of this information to help us to:

(1) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Evaluate the quality, ability and clarity of the information technology; and

(4) Minimize the burden of the information collection on those who respond through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget Approval.

Richard Fordyce,

Administrator, Farm Service Agency.
