Under the Freedom of Information Act (FOIA) (5 U.S.C. 552), CBI is exempt from public disclosure. If your comments responsive to this notice contain commercial or financial information that is customarily treated as private, that you actually treat as private, and that is relevant or responsive to this notice, it is important that you clearly designate the submitted comments as CBI. Pursuant to 49 CFR 190.343, you may ask PHMSA to give confidential treatment to information you give to the Agency by taking the following steps: (1) mark each page of the original document submission containing CBI as “Confidential”; (2) send PHMSA, along with the original document, a second copy of the original document with the CBI deleted; and (3) explain why the information you are submitting is CBI. SUPPLEMENTARY INFORMATION: On November 15, 2021, the Infrastructure Investment and Jobs Act (IIJA) (Pub. L. 117-58) was enacted. Under the heading “Department of Transportation—Pipeline and Hazardous Materials Safety Administration—Natural Gas Distribution Infrastructure Safety and Modernization Grant Program” in title VIII of division J, the Natural Gas Distribution Infrastructure Safety and Modernization Grant Program was established. The stated purpose of the program is to provide grant opportunities to municipality and community-owned utilities (not including for-profit entities) “to repair, rehabilitate, or replace its natural gas distribution pipeline system or portions thereof or to acquire equipment to (1)

reduce incidents and fatalities and (2) avoid economic losses.” The statutory requirements for PHMSA’s implementation of the program are mandatory, and PHMSA is expected to implement the program as swiftly as possible to reduce incidents, fatalities, and adverse impacts to the public and the environment, particularly in disadvantaged communities.

Under the Federal Pipeline Safety Laws, 49 U.S.C. 60101 *et seq.*, the Secretary of Transportation (the Secretary) must prescribe minimum safety standards for pipeline transportation and for pipeline facilities. The Secretary has delegated this authority to the PHMSA Administrator (49 CFR 1.97(a)). Therefore, PHMSA is the Federal safety agency responsible for ensuring the safe, reliable, and environmentally sound operations of our Nation’s pipeline transportation system. Through the NGDISM Grant Program, PHMSA seeks to (1) reduce the risk profile of existing municipality and community-owned (not including for-profit entities) natural gas distribution pipeline systems, including pipe prone to leakage of methane, (2) create related jobs, (3) provide economic impact and growth, and (4) benefit disadvantaged rural and urban communities.

PHMSA is publishing this notice, in compliance with the National Environmental Policy Act of 1969 (NEPA), to give stakeholders an opportunity to comment on PHMSA’s Tier 1 Nationwide Environmental Assessment.

We invite interested persons to review and provide comment on the Tier 1 Nationwide Environmental Assessment which is included in the docket for this notice. The document is available at <http://www.regulations.gov> under Docket number PHMSA-2022-0123. Please include comment on potential safety, environmental, and any additional impacts that should be considered.

Before issuing the Tier 1 Nationwide Environmental Assessment, PHMSA will evaluate all comments received on or before the comment closing date. Comments received after the closing date will be evaluated if it is possible to do so without incurring additional expense or delay. PHMSA will consider each relevant comment it receives prior to issuing the Tier 1 Nationwide Environmental Assessment as part of the NGDISM Grant Program.
