

are certain enclosable wall bed units, also referred to as murphy beds, which are composed of the following three major sections: (1) A metal wall frame, which attaches to the wall and uses coils or pistons to support the metal mattress frame; (2) a metal frame, which has euro slats for supporting a mattress and two legs that pivot; and (3) wood panels, which attach to the metal wall frame and/or the metal mattress frame to form a cabinet to enclose the wall bed when not in use. Excluded enclosable wall bed units are imported in ready-to-assemble format with all parts necessary for assembly. Enclosable wall bed units do not include a mattress. Wood panels of enclosable wall bed units, when imported separately, remain subject to the order.

Imports of subject merchandise are classified under subheadings 9403.50.9042 and 9403.50.9045 of the HTSUS as “wooden . . . beds” and under subheading 9403.50.9080 of the HTSUS as “other . . . wooden furniture of a kind used in the bedroom.” In addition, wooden headboards for beds, wooden footboards for beds, wooden side rails for beds, and wooden canopies for beds may also be entered under subheading 9403.50.9042 or 9403.50.9045 of the HTSUS as “parts of wood.” Subject merchandise may also be entered under subheadings 9403.50.9041, 9403.60.8081, or 9403.20.0018. Further, framed glass mirrors may be entered under subheading 7009.92.1000 or 7009.92.5000 of the HTSUS as “glass mirrors . . . framed.” The order covers all wooden bedroom furniture meeting the above description, regardless of tariff classification. Although the HTSUS subheadings are provided for convenience and customs purposes, our written description of the scope of this proceeding is dispositive.

Instructions to U.S. Customs and Border Protection

Because we determine that there are changed circumstances that warrant the revocation of the *Order*, in part, we will instruct U.S. Customs and Border Protection (“CBP”) to liquidate without regard to antidumping duties, and to refund any estimated antidumping duties on, all unliquidated entries of the merchandise covered by the revocation that are not covered by the final results of an administrative review or automatic liquidation.

that are excluded from the wooden bedroom furniture order apply to the box itself rather than the lid.

Notification

This notice serves as a reminder to parties subject to an administrative protective order (“APO”) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.306. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and terms of an APO is a sanctionable violation.

We are issuing and publishing these final results and revocation, in part, and notice in accordance with sections 751(b) and 777(i) of the Tariff Act of 1930, as amended, and 19 CFR 351.216, 19 CFR 351.221(c)(3), and 19 CFR 351.222.

Dated: October 22, 2014.

Paul Piquado,

Assistant Secretary for Enforcement and Compliance.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648–XD527

Marine Mammals; File Nos. 18638, 17305 and 18727

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of applications.

SUMMARY: Notice is hereby given that the following entities have applied in due form for permits to collect, import and export specimens of marine mammals for scientific research:

File No. 18638: National Marine Mammal Laboratory (NMML, Dr. John Bengtson, Responsible Party), 7600 Sand Point Way NE., Seattle, WA 98115;

File No. 17305: Alliance of Marine Mammal Parks and Aquariums, 218 N. Lee Street, Suite 200, Alexandria, Virginia 22314 (Kathleen Dezio, Responsible Party); and

File No. 18727: University of Alaska Museum of the North, 907 Yukon Drive, Fairbanks, AK 99775–6960 (Aren Gunderson, Responsible Party).

DATES: Written, telefaxed, or email comments must be received on or before December 1, 2014.

ADDRESSES: The applications and related documents are available for review by selecting “Records Open for

Public Comment” from the *Features* box on the Applications and Permits for Protected Species (APPS) home page, <https://apps.nmfs.noaa.gov>, and then selecting the appropriate File No. 18638, 17305 or 18727 from the list of available applications.

These documents are also available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

Written comments on these applications should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713–0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the appropriate File No(s). 18638, 17305 and/or 18727 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on any of these applications would be appropriate.

FOR FURTHER INFORMATION CONTACT:

Jennifer Skidmore, Amy Sloan, or Brendan Hurley, (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permits are requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222–226), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

File No. 18638: NMML conducts research on marine mammals important to the mission of the National Marine Fisheries Service (NMFS) and the National Oceanic & Atmospheric Administration (NOAA). NMML is requesting a renewal of Permit No. 13583 which authorizes collection of cetacean and pinniped (except for walrus) specimens from dead animals, and for import, export, and possession of specimens taken legally worldwide. Samples (up to 100,000 individuals from each taxa group) may be archived, transported, shared, and analyzed by researchers in order to optimize the amount of biological information gained from each animal. No takes of live animals would be authorized under this

permit. There will be no non-target species taken incidentally under this permit because the permit would only cover import, export, and possession of samples from dead animals or live animals taken legally under other permits. A permit is requested for a five-year period.

File No. 17305: The Alliance of Marine Mammal Parks and Aquariums members participate in multiple research and husbandry programs to study and enhance the health and biology of both wild marine mammals and those in public display, research, and stranding facilities. To achieve this objective, a permit to import/export parts and specimen samples (hard and soft parts) collected from all species of marine mammals (pinnipeds except walrus, and cetaceans) under the jurisdiction of the NMFS is required. Specimens and parts will come from individual animals (up to 700 cetaceans and 400 pinnipeds) already taken under separate authorization, i.e., those maintained in Alliance member facilities, as well as animals taken by authorized research projects or subsistent hunts in the U.S. and internationally, and bycatch or stranded animals in foreign countries. Import and export of parts and samples authorized by this permit will result in no additional takes of individual animals. Topics of particular interest include diseases of marine mammals, pathology, health diagnostics, endocrinology, effects of environmental contaminants, immunology, toxicology, stock structure, distribution, age determination, reproduction, feeding habits and nutrition. This application is a continuation of the work done under Permit No. 1076–1789. The requested duration of the permit is five years.

File No. 18727: The University of Alaska Museum of the North functions as an archive for scientific specimens of marine mammals under the jurisdiction of the National Marine Fisheries and is a major repository of marine mammal material from the Arctic and North Pacific oceans. Under the proposed permit, the applicant would (1) import/export marine mammal parts (bones and organ tissue samples) from dead beach-cast carcasses, (2) receive/archive and export samples of marine mammals taken by Alaskan Native subsistence hunters, and (3) receive, import/export specimens from scientists in academic, federal, and state institutions involved in marine mammal research under their own permits. Unlimited samples from up to 1,240 pinnipeds (35 species; excluding walrus) and 1,700 cetaceans (81 species) would be collected, received, imported, or exported

annually. Import/export activities would occur world-wide. No live animals would be harassed or taken, lethally or otherwise, under the requested permit. The permit is requested for a five-year period.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: October 24, 2014.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

NOAA RESTORE Act Science Program Science Plan

AGENCY: National Ocean Service, National Oceanic and Atmospheric Administration, U.S. Department of Commerce

ACTION: Notice and Request for Public Comment.

SUMMARY: The National Ocean Service (NOS) of the National Oceanic and Atmospheric Administration (NOAA) publishes this notice to announce the availability of the Draft Science Plan for the NOAA RESTORE Act Science Program for public comment.

DATES: Comments on this draft document must be submitted by December 15, 2014.

ADDRESSES: The Draft Science Plan for the NOAA RESTORE Act Science Program will be available at <http://restoreactscienceprogram.noaa.gov/>.

The public is encouraged to submit comments on the Draft Science Plan. Electronic comments on the Draft Science Plan can be submitted via email (noaarestorescience@noaa.gov). Written comments can be submitted to Becky Allee at NOAA OCM, Gulf of Mexico Division, Bldg. 1100, Rm 232, Stennis Space Center, MS 39529.

FOR FURTHER INFORMATION CONTACT: For further information, contact: Becky

Allee, (becky.allee@noaa.gov, 228–688–1701).

SUPPLEMENTARY INFORMATION: NOAA is publishing this notice to announce the availability of the Draft Science Plan for the NOAA RESTORE Act Science Program for public comment. The draft plan will be posted for public comment on October 30, 2014. All interested parties are encouraged to provide comments. The Draft Science Plan is being issued for comment only and is not intended for interim use. Suggested changes will be incorporated, where appropriate, in the final version.

Section 1604 of the Resources and Ecosystems Sustainability, Tourist Opportunities, and Revived Economies of the Gulf Coast States Act of 2012 (RESTORE Act) establishes the Gulf Coast Ecosystem Restoration Science, Observation, Monitoring, and Technology program (Science Program) to be administered by NOAA and to carry out research, observation, and monitoring to support the long-term sustainability of the ecosystem, fish stocks, fish habitat, and the recreational, commercial, and charter fishing industry in the Gulf of Mexico.

The Draft Science Plan for the NOAA RESTORE Act Science Program lays out the path forward for the program. The plan establishes ten Long-Term Research Priorities that will guide how the program will invest its funds. Additionally, the plan provides information on how the program will be administered and the partners with which the program will leverage future opportunities.

The plan is organized in three sections. Section I provides background on legislative requirements; the vision, mission, and outcomes of the program; program, geographic, and research scope; approach to engagement; and rationale and development of priorities. Section II describes the ten long-term research priorities identified for the program. Also included in Section II are management needs that drive the priority, related outcomes, and anticipated outputs as well as a list of example activities. Section III describes the program structure and administration; defines program management; consultation and coordination; program parameters; eligibility for funding opportunities; scientific integrity; and data and information sharing.

NOAA welcomes all comments on the content of the Draft Science Plan. We also request comments on any inconsistencies perceived within the document, and possible omissions of important topics or issues. For any
