#### SUPPLEMENTARY INFORMATION:

##### Background

The U.S. Department of Energy's (DOE) Wind and Water Power Technologies is committed to developing and deploying a portfolio of innovative technologies for clean, domestic power generation from resources such as hydropower, waves, and tides. The Wind and Water Power Technologies portfolio is aimed at producing the next generation of water power technologies and jump-starting private sector innovation that is critical to the country's long-term economic growth, energy security, and international competitiveness. By executing objective, comprehensive Peer Reviews, the Wind and Water Power Technologies Office ensures that its portfolio of project addresses industry needs and impacts the long-term development and deployment of water power technologies in the United States.

##### Public Participation

The event is open to the public based upon space availability. DOE will also accept public comments as described in **ADDRESSES** for purposes of developing the Water Power Program portfolio, but will not respond individually to comments received.

Participants should limit information and comments to those based on personal experience, individual advice, information, or facts regarding this topic. It is not the object of this session to obtain any group position or consensus from the meeting participants. To most effectively use the limited time, please refrain from passing judgment on another participant's recommendations or advice, and instead, concentrate on your individual experiences.

Following the meeting, a summary will be compiled by DOE and posted for public comment. For those interested in providing additional public comment, the summary will be posted at [water.energy.gov](http://water.energy.gov).

#### Information on Services for Individuals with Disabilities

Individuals requiring special accommodations at the meeting, please contact Mark Higgins no later than the close of business on February 24, 2014.

Issued in Washington, DC on February 3rd, 2014.
