The Mid-Atlantic Fishery Management Council developed this amendment to limit the amount of surfclam or ocean quahog individual transferable quota (ITQ) share or annual allocation in the form of cage tags that an individual or their family members could hold. The Amendment would prohibit an ITQ shareholder, including business owners and their immediate

family members, from acquiring ownership of more than 35 percent of the surfclam quota or 40 percent of the ocean quahog quota. A separate, higher cap would be established for the maximum amount of available cage tags that an ITQ permit holder may acquire through leasing or other transactions during the course of an individual fishing year of 65 percent for surfclam tags and 70 percent for ocean quahog tags.

Additional details of the proposed measures are available in the amendment document and the proposed rule.
