[EPA-R09-OAR-2014-0460; FRL-9915-36-Region 9]

#### Revisions to the California State Implementation Plan, Imperial County Air Pollution Control District and San Joaquin Valley Unified Air Pollution Control District

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is proposing to approve revisions to the Imperial County Air Pollution Control District (ICAPCD) and San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portions of the California State Implementation Plan (SIP). These revisions concern definitions that are necessary for the creation, modification and understanding of rules that address air pollution. Among other changes, the revised definitions help clarify federal New Source Review (NSR) requirements, update the districts' exempt volatile organic compounds list to correspond with EPA's, and improve formatting consistency. We are proposing to approve local rules which include these definitions under the Clean Air Act (CAA or the Act).

**DATES:** Any comments on this proposal must arrive by November 3, 2014.

**ADDRESSES:** Submit comments, identified by docket number EPA-R09-OAR-2014-0460, by one of the following methods:

1. *Federal eRulemaking Portal:* [www.regulations.gov](http://www.regulations.gov). Follow the on-line instructions.

**SUPPLEMENTARY INFORMATION:** This proposal addresses the following local rules: ICAPCD Rule 101 and SJVUAPCD Rule 1020. In the Rules and Regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. If we receive adverse comments, however, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is

planned. For further information, please see the direct final action.

Dated: July 25, 2014.

[EPA-R06-RCRA-2012-0793; FRL-9916-01-Region 6]

#### Arkansas: Final Authorization of State-Initiated Changes and Incorporation by Reference of State Hazardous Waste Management Program

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** During a review of Arkansas' regulations, the Environmental Protection Agency (EPA) identified a variety of State-initiated changes to Arkansas' hazardous waste program under the Resource Conservation and Recovery Act, as amended (RCRA), for which the State had not previously sought authorization. The EPA proposes to authorize the State for the program changes. In addition, the EPA proposes to codify in the regulations entitled "Approved State Hazardous Waste Management Programs", Arkansas' authorized hazardous waste program. The EPA will incorporate by reference into the Code of Federal Regulations (CFR) those provisions of the State regulations that are authorized and that the EPA will enforce under RCRA.

**DATES:** Send written comments by November 3, 2014.

**ADDRESSES:** Send written comments to Alima Patterson, Region 6, Regional Authorization Coordinator, or Julia Banks, Codification Coordinator, State/Tribal Oversight Section (6PD-O), Multimedia Planning and Permitting Division, EPA Region 6, 1445 Ross Avenue, Dallas, Texas 75202-2733. Phone number: (214) 665-8533 or (214) 665-8178. You may also submit comments electronically or through hand delivery/courier; please follow the detailed instructions in the **ADDRESSES** section of the direct final rule which is located in the Rules section of this **Federal Register**.

**FOR FURTHER INFORMATION CONTACT:** Alima Patterson, (214) 665-8533.

**SUPPLEMENTARY INFORMATION:** In the "Rules and Regulations" section of this **Federal Register**, the EPA is authorizing

the changes to the Arkansas program, and codifying and incorporating by reference the State's hazardous waste program as a direct final rule. The EPA did not make a proposal prior to the direct final rule because we believe these actions are not controversial and do not expect comments that oppose them. We have explained the reasons for this authorization and incorporation by reference in the preamble to the direct final rule. Unless we get written comments which oppose this authorization and incorporation by reference during the comment period, the direct final rule will become effective on the date it establishes, and we will not take further action on this proposal. If we get comments that oppose these actions, we will withdraw the direct final rule and it will not take effect. We will then respond to public comments in a later final rule based on this proposal. You may not have another opportunity for comment. If you want to comment on this action, you must do so at this time.

**Authority:** This action is issued under the authority of sections 2002(a), 3006, and 7004(b) of the Solid Waste Disposal Act, as amended, 42 U.S.C. 6912(a), 6926, and 6974(b).

Dated: August 18, 2014.

#### SUPPLEMENTARY INFORMATION:

##### Background

Section 402(a)(1) for the Magnuson-Stevens Fishery Conservation and

Management Act authorizes the Secretary of Commerce to implement an information collection program if a fishery management council determines that additional information would be beneficial for developing, implementing, or revising a fishery management plan. The Mid-Atlantic Fishery Management Council requested that NMFS implement an information collection program in the Atlantic surfclam and ocean quahog individual transferable quota (ITQ) fisheries. The specific components of the requested information collection are detailed in a white paper titled, "Data Collection Recommendations for the Surfclam and Ocean Quahog Fisheries," that was prepared by the Surfclam and Ocean Quahog Data Collection Fishery Management Action Team at the direction of the Council. The purpose of this information collection is to better identify the specific individuals who hold or control ITQ allocation in these fisheries. The Council will use the information collected to inform the development of a future management action intended to establish an excessive share cap as part of the Council's Atlantic Surfclam and Ocean Quahog Fishery Management Plan.

On August 7, 2014, NMFS published in the **Federal Register** a proposed rule to implement the Council's requested information collection program with a 30-day comment period that closed on September 8, 2014 (79 FR 46233). NMFS received a request from the Council to extend the comment period until after the Council meeting on October 7-9, 2014, to allow the Council to hold a public discussion of the proposed measures. Therefore, to allow for additional public comment to be submitted after this proposed action is discussed at the Council meeting, NMFS is reopening the comment period on the proposed rule through October 17, 2014. Comments submitted during the prior comment period have been incorporated into the public record, and will be fully considered during preparation of our final determination.
