desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed. The Middle Class Tax Relief and Job Creation Act of 2012 (the Act) was signed into law on February 22, 2012. Section 2104 of the Act amends Title IX, Social Security Act by adding a new section 911 (42 U.S.C. 1111), which requires the Department to issue rules, developed in consultation with an interagency workgroup established by OMB, that establish data exchange standards for certain functions related to administration of the unemployment insurance (UI) program. The rule designates XML (eXtensible Markup Language) as the data exchange standard for the real-time applications on the Interstate Connection Network (ICON) and for State Information Data Exchange System (SIDES). States are required to conform to the XML data exchange standard for these applications. DOL's regulations implementing this Act, codified in 20 CFR part 619, authorizes this information collection. This is a proposed extension with revision. The number of states that the Data Exchange Standardization rule affects has changed from 25 to 15, as more states have implemented this rule. So, the Total Annual Burden hours has changed from 3,000 hours to 1,800 hours.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention OMB control number 1205-0510.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. DOL encourages commenters not to include personally identifiable information, confidential business data,

or other sensitive statements/ information in any comments.

DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, (e.g., permitting electronic submission of responses).
