

Animal and Plant Health Inspection Service

Title: Importation of Pomegranates from Chile under a System Approach.

OMB Control Number: 0579-0375.

Summary of Collection: Under the Plant Protection Act (7 U.S.C. 7701-7772), the Secretary of Agriculture is authorized to prohibit or restrict the importation, entry, or movement of plants and plant pests to prevent the introduction of plant pests into the United States or their dissemination within the United States. The regulations in "Subpart-Fruit and Vegetables" (7 CFR 319.56-58), prohibit or restrict the importation of fruits and vegetables into the United States from certain parts of the world to prevent the introduction and dissemination within the United States. The importation of pomegranates from Chile, into the continental United States, is under a system approach in which the fruit must be grown in a place of production that is registered with the Government of Chile and certified as having a low prevalence of *Brevipalpus chilensis*. The fruit undergoes pre-harvest sampling at the registered production site. After the post-harvest process, the fruit is inspected in Chile at an approved inspection site.

Need and Use of the Information: The Animal and Plant Health Inspection Service will use the following activities to collect information: Phytosanitary Certificate with/Addition 9 Declaration, Production Site Registration, Marking of Cartons with Registration Number, and List of Certified Production Sites. Failing to collect this information would cripple APHIS' ability to ensure pomegranates from Chile are not carrying plant pests.

Description of Respondents: State, Local or Tribal Government; Federal Government.

Number of Respondents: 3.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 150.

Departmental Information Collection Clearance Officer.
