Final Rule Stage

463. Small Business Size Standards: Adjustment of Alternative Size Standard for SBA’s 7(a) and CDC/504 Loan Programs for Inflation; and Surety Bond Limits: Adjustments for Inflation [3245-AG16]

Legal Authority: Pub. L. 111-240, sec. 1116

Abstract: SBA proposes amending its size eligibility criteria for Business Loans, certified development company (CDC) loans under title V of the Small Business Investment Act (504) and economic injury disaster loans (EIDL). For the SBA 7(a) Business Loan Program and the 504 program, the amendments will provide an alternative size standard for loan applicants that do not meet the small business size standards for their industries. The Small Business Jobs Act of 2010 (Jobs Act) established alternative size standards that apply to both of these programs until SBA’s Administrator establishes other alternative size standards. For the disaster loan program, the amendments will provide an alternative size standard for loan applicants that do not meet the Small Business Size Standard for their industries. SBA loan program alternative size standards do not affect other Federal Government programs, including Federal procurement.

464. Small Business Timber Set-Aside Program [3245-AG69]

Legal Authority: 15 U.S.C. 631; 15 U.S.C. 644(a)

Abstract: The U.S. Small Business Administration (SBA or Agency) is amending its Small Business Timber Set-Aside Program (the Program) regulations. The Small Business Timber Set-Aside Program is rooted in the Small Business Act, which tasked SBA with ensuring that small businesses receive a fair proportion of the total sales of government property. Accordingly, the Program requires Timber sales to be set aside for small business when small business participation falls below a certain amount. SBA considered comments received during the Advance Notice of Proposed Rulemaking and Notice of Proposed Rulemaking processes, including on issues such as, but not limited to, whether the saw timber volume purchased through stewardship timber contracts should be included in calculations, and whether the appraisal point used in set-aside sales should be the nearest small business mill. In addition, SBA is considering data from the timber industry to help evaluate the current program and economic impact of potential changes.

467. Small Business Size Standards: Adjustment of Monetary Based Size Standards, Disadvantage Thresholds, and 8(a) Eligibility Thresholds for Inflation [3245-AH93]

Legal Authority: 15 U.S.C. 632(a); 15 U.S.C. 637(a)(6)(A)

Abstract: SBA intends to issue this rulemaking to adjust its monetary small business size standards (i.e., receipts, net income, net worth, and financial assets) for the effects of inflation that have occurred since the last inflation adjustment, which was effective on August 19, 2019. SBA is required by its regulations in 13 CFR 121.102(c) to review the effects of inflation on its monetary standards at least once every five years. As in previous adjustments, SBA will apply the Gross Domestic Product (GDP) price index as a measure of inflation. This action will restore

small business eligibility to businesses that have lost that status due to inflation.

In addition, SBA intends to adjust other monetary thresholds in its regulations that are otherwise not adjusted for inflation under FAR 1.109. These thresholds primarily are those used in the 8(a) Business Development and the Economically Disadvantaged Women-Owned Small Business (EDWOSB) programs to determine economic disadvantage. Others are used to maintain eligibility for the 8(a) program. In some cases, these thresholds have not been adjusted for 25 years. This action will permit small businesses to retain eligibility as economically disadvantaged and eligible for the 8(a) program, despite an increase in inflation.

SBA will publicize the rule via the Small Business Procurement Advisory Council, the Integrated Acquisition Environment, *fbo.gov*, press releases, publication of this rule in the **Federal Register**, emails to interested parties, and the size standards website at www.sba.gov/size.
