Proposed Site Plans Under a Candidate Conservation Agreement With Assurances for the Fisher in Oregon; Enhancement of Survival Permit Applications

AGENCY: Fish and Wildlife Service,
Interior.

ACTION: Notice of availability; request
for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), have received two enhancement of survival permit (permit) applications pursuant to the Endangered Species Act (ESA). If granted, the requested permits would authorize incidental take of the fisher, should the species become federally listed in the future under the ESA. The permit applications are associated with a template candidate conservation agreement with assurances (CCAA) previously developed by the Service for the conservation of the fisher. The conservation measures in the CCAA are intended to provide a net conservation benefit to the fisher. We have also prepared draft environmental action statements (EASs) pursuant to the requirements of the National Environmental Policy Act of 1969 for each of these permit applications. We are making the permit application packages and draft EASs available for public review and comment.

DATES: To ensure consideration, written comments must be received from interested parties no later than April 13, 2020.

ADDRESSES: To request further information or submit written comments, please use one of the following methods: Note that your information request or comments are in reference to the "Campbell Fisher CCAA" and indicate by name, which permit application (see below) you are interested in or addressing.

- **Internet:** Documents may be viewed on the internet at <http://www.fws.gov/oregonfwo/>.

- **Email:** CampbellCCAAcomments@fws.gov. Include "Campbell Fisher CCAA" in the subject line of the message or comments and indicate which permit application on which you are providing comments.

- **U.S. Mail:** State Supervisor, Oregon Fish and Wildlife Office, U.S. Fish and Wildlife Service; 2600 SE 98th Avenue, Suite 100; Portland, OR 97266.

- **In-Person Drop-off, Viewing, or Pickup:** Comments and materials received will be available for public inspection, by appointment (necessary for viewing or picking up documents only), during normal business hours at the Oregon Fish and Wildlife Office (at the above address); call 503-231-6179 to make an appointment. Written comments can be dropped off during regular business hours at the above address on or before the closing date of the public comment period (see **DATES**).

SUPPLEMENTARY INFORMATION: We, the Service, have received two permit applications from timber land owners in Oregon pursuant to section 10(a)(1)(A) of the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The requested permits would authorize incidental take of the fisher (*Pekania pennanti*) caused by the applicants' routine forest-related management activities through June 20, 2047, or the remaining duration of the CCAA, should the fisher become federally listed in the future under the ESA. Each permit application includes a proposed individual site plan prepared in accordance with the template CCAA previously developed by the Service for the conservation of the fisher. We also have prepared draft environmental action statements (EASs) pursuant to the requirements of the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) for each of these permits.

Background

A CCAA is a voluntary agreement whereby landowners agree to manage their lands to remove or reduce threats to species that may become listed under the ESA (64 FR 32726; June 17, 1999). CCAAs are intended to facilitate the conservation of proposed and candidate species, and species likely to become candidates in the near future, by giving

non-Federal property owners incentives to implement conservation measures for declining species by providing certainty with regard to land, water, or resource use restrictions that might be imposed should the species later become listed as threatened or endangered under the ESA. In return for managing their lands to the benefit of the covered species, enrolled landowners receive assurances that additional regulatory requirements pertaining to the covered species will not be required if the covered species becomes listed as threatened or endangered under the ESA, so long as the CCAA remains in place and is being fully implemented.

A CCAA serves as the basis for the Service to issue permits to non-Federal participants pursuant to section 10(a)(1)(A) of the ESA. Application requirements and issuance criteria for permits under CCAAs are found in the Code of Regulations (CFR) at 50 CFR 17.22(d) and 17.32(d). The Service developed a template CCAA for the West Coast distinct population segment (DPS) of the fisher in Oregon and a draft EAS for future issuance of permits under the finalized template to comply with NEPA. The template CCAA and the EAS were noticed for comment in the **Federal Register** (81 FR 15737; March 24, 2016). The template CCAA and EAS were finalized and signed by the Service on June 20, 2018.

The CCAA template established general guidelines and identified minimum conservation measures for potential participants in the CCAA. Interested participants can voluntarily enroll their properties under the CCAA through development of individual site plans prepared in accordance with the provisions of the CCAA and that are submitted as part of their permit applications. The permits would authorize incidental take of the fisher with assurances to qualifying landowners who carry out conservation measures that would benefit the West Coast DPS of the fisher.

Proposed Actions

We have received applications for ESA section 10(a)(1)(A) permits under the template CCAA for the fisher from the Pacific West Timber Company, LLC and the Franklin-Clarkson Timber Company (applicants) for their identified lands in Oregon. They are being represented by Campbell Global, LLC, who will be principally responsible for timber management on these lands.

Each requested permit would authorize incidental take of the fisher, should it become federally listed and affected by the applicant's routine
