Background and Purpose

On March 9, 2006, the Coast Guard published a notice of intent, notice of availability, and request for comments (71 FR 12210), announcing the start of the public scoping process that determines the scope of issues to be addressed in the EIS and for identifying the significant issues related to the proposed action. As promised in that notice, today we are announcing where and when the public scoping meeting will be held. We are also announcing the availability of a sampling plan that environmental experts retained by the Coast Guard have proposed. We are considering adopting this sampling plan in order to analyze the impact of dry cargo residue discharges in the Great Lakes. The proposed sampling plan is available for public review either electronically or at the Docket Management Facility (see **ADDRESSES** and *Request for Comments*).
