POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office (TECRO) in the United States—MK 48 Mod 6AT Heavyweight Torpedo (HWT)

Taiwan has requested a possible sale of forty-six (46) MK 48 Mod 6AT Heavyweight Torpedoes (HWT). This sale will include HWT containers, torpedo support, torpedo spare parts, publications, training, weapon system support, engineering and technical assistance. The total estimated program cost is \$250 million.

This proposed sale is consistent with United States law and policy, as expressed in Public Law 96–8.

This proposed sale serves U.S. national, economic and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capabilities. The proposed sale will help improve the security of the recipient and assist in maintaining political

stability, military balance and economic progress in the region.

The proposed sale will improve the recipient's capability in current and future defensive efforts. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen homeland defense. The recipient will have no difficulty absorbing this equipment into its armed forces.

There are no prime contractors associated with this case as all materials will be procured from U.S. Navy stocks. There are no known offset agreements proposed in connection with this potential sale.

It is estimated that during implementation of this proposed sale a number of U.S. Government and contractor representatives will be assigned to the recipient or travel there intermittently during the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16–69

Annex

Item No vii

(vii) *Sensitivity of Technology*:

1. The MK 48 Heavy Weight Torpedo (HWT) has been in service in the U.S. Navy (USN) since 1972. This sale furnishes the MK 48 Mod 6 Advanced Technology (AT) version of the system. The purchaser currently does not have this weapon system in its inventory. The proposed sale consists of 46 HWTs, containers, spare and repair parts, weapons system support and integration, personnel training, training equipment, test equipment, U.S. Government and contractor engineering, technical and logistics support services and other related elements of logistical support.

a. There is no Critical Program Information associated with the MK 48 Mod 6AT HWT hardware, technical documentation or software. The highest classification of the hardware to be exported is SECRET. The highest classification of the technical manual that will be exported is CONFIDENTIAL. The technical manual is required for operation of the MK 48 Mod 6AT HWT. The highest classification of the software to be

exported is SECRET. The MK 48 Mod 6AT HWT meets Anti-Tampering requirements.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in development of a system with similar or advanced capabilities.

3. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives in the Policy justification.

4. All defense articles and services listed in this transmittal have been authorized for release and export to Taipei Economic and Cultural Representative Office (TECRO) in the United States.

POLICY JUSTIFICATION

Taipei Economic and Cultural Representative Office (TECRO) in the United States—AGM–88B High-Speed Anti-Radiation Missiles (HARM)

TECRO requested a possible sale of fifty (50) AGM–88B HARMs and ten (10) AGM–88B Training HARMs. This request also includes: HARM integration, LAU-1 18A Launchers, missile containers, spare and repair parts, support and test equipment, Joint Mission Planning System update, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The total estimated program cost is \$147.5 million.

This proposed sale is consistent with U.S. law and policy as expressed in Public Law 96–8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and to maintain a credible defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability in current and future defensive efforts. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen homeland defense. The recipient will have no difficulty absorbing this equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Currently, market research is being conducted to determine the viability of a qualified contractor in accordance with Federal Acquisition Regulations. The purchaser typically requests offsets, but any offsets will be determined between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives outside the United States.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 16–74

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex Item No. vii

(iii) *Sensitivity of Technology*:

1. AGM–88B High-Speed Anti-Radiation Missile (HARM) is a supersonic air-to-surface missile designed to seek and destroy enemy radar-equipped air defense systems. HARM has a proportional guidance system that hones in on enemy radar emissions through a fixed antenna and seeker head in the missile nose. The missile consists of four sections; guidance section, warhead, control section, and rocket motor.

2. The highest classification of the hardware to be exported is SECRET. The highest classification of the technical documentation to be exported is SECRET, but no radar cross section and infrared signature data nor U.S.-only tactics or tactical doctrine will be disclosed. The highest classification of

the software to be exported is SECRET; however, no software source code will be disclosed. All reprogramming of missile microprocessor memories must be accomplished by U.S. Government personnel or U.S. Government approved contractors.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification. Moreover, the benefits to be derived from this sale, as outlined in the Policy Justification, outweigh the potential damage that could result if the sensitive technology were revealed to unauthorized persons. A determination has been made that the recipient country can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification and in accordance with the Taiwan Relations Act.

5. All defense articles and services listed in this transmittal are authorized for release and export to the Taipei Economic and Cultural Representative Office (TECRO) in the United States.
