New England Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council's (Council) Multispecies (Groundfish) Committee will meet to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Tuesday, May 13, 2008, at 9 a.m.

ADDRESSES: The meeting will be held at the Holiday Inn, One Newbury Street, Peabody, MA 01960; telephone: (978) 535-4600.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION: The items of discussion in the committee's agenda are as follows:

The Groundfish Oversight Committee will meet to continue development of Amendment 16 to the Northeast Multispecies Fishery Management Plan. Amendment 16 will adopt measures necessary to continue rebuilding of

multispecies stocks. The Committee will focus its efforts on reviewing alternatives for effort controls designed to meet the mortality objectives of the amendment. Since stock status will not be known until later this year, the effort control alternatives will be designed to achieve changes in mortality identified in an earlier action. It is not known if these changes will be sufficient or unnecessary once stock status is known. The Committee will also develop options for recreational management measures, further develop annual catch limit and accountability measures for commercial and recreational groundfish fishing, and clarify sector policy issues. The Committee may develop recommendations for preferred alternatives for all management measures that are being considered. Recommendations from this committee will be forwarded to the Council for consideration.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final action to address the emergency.
