

person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060–1003.

Title: Communications Disaster Information Reporting System (DIRS).

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions; State, Local or Tribal Government; Federal Government.

Number of Respondents and Responses: 400 respondents; 104,000 responses.

Estimated Time per Response: 1 hour—1.5 hours (average per response).

Frequency of Response: On occasion and Annual Reporting Requirements and Recordkeeping Requirements.

Obligation to Respond: Voluntary. Statutory authority for this collection is contained in sections 1, 4(i), 4(j), 4(o), 251(e)(3), 254, 301, 303(b), 303(g), 303(r), 307, 309(a), 309(j), 316, 332, and 403 of the Communications Act of 1934, as amended, and section 706 of the Telecommunications Act of 1996, 47 U.S.C. 151, 154(i)–(j) & (o), 251(e)(3), 254, 301, 303(b), 303(g), 303(r), 332, 403, and 1302.

Total Annual Burden: 16,320 hours.

Total Annual Cost: No Cost.

Needs and Uses: The Commission launched the Disaster Information Reporting System (DIRS) in 2007 pursuant to its mandate to promote the safety of life and property through the use of wire and radio communication as required by the Communications Act of 1934, as amended. DIRS is a voluntary, efficient, and web-based system that communications companies may use to report their infrastructure status during times of crisis (e.g., related to a disaster). DIRS uses a number of template forms tailored to different communications sectors (i.e., wireless, wireline, broadcast, and cable) to facilitate the entry of this information. To use DIRS, a company first inputs its emergency contact information. After this, they submit information using the template form appropriate for their communications sector. In a *Second Report and Order* adopted on March 18, 2021, as FCC 21–34, the Commission adopted rules allowing certain federal, state, and Tribal Nation agencies (Participating Agencies) to access to certain geographically relevant reports filed in the Commission's Disaster Information Reporting System (DIRS). The information collections and record keeping provisions adopted will allow

Participating Agencies to apply for, and receive access to, DIRS report in the areas where they have jurisdiction. The collection will further enable these Participating Agencies, at their election, to share DIRS reports with qualified local agencies whose jurisdiction is affected by a disaster, while still maintaining the confidentiality of the substantive data. The changes to the data collections fields in the DIRS filings made by service providers will further facilitate the ability of Participating Agencies to access those reports relevant to their specific geographies. Finally, the changes to the information collection and associated recordkeeping requirements, including retention by participating agencies of qualification forms submitted by local agency seeking access to DIRS data, as well as a list of which local agencies receive information from the Participating Agency, training materials setting clear parameters for the use of DIRS data, and a list of those persons granted DIRS account access, will enable auditing functions to ensure accountability in the use of DIRS information and immediate reporting of breaches of access or confidentiality protocols.

The Commission notes that the information sharing framework established in the Second Report and Order allows for access to be granted not only for DIRS, but also to the Commission's Network Outage Reporting System (NORS). We note that the process and requirements for Participating Agencies under this framework is identical, regardless of whether they seek access to NORS, DIRS, or both. Because the Commission anticipates that NORS and DIRS access will be requested together in most cases, it believes that the estimated burden hours and costs for Participating Agencies associated with DIRS access are fully included in the estimates that it has separately submitted as part of its collection on Part 4 of the Commission's Rules Concerning Disruptions to Communications, OMB Control No. 3060–0484. To avoid double-counting the estimated burden hours and costs associated with both collections, the Commission estimates the marginal cost of the Participating Agency aspect of this collection to be zero.

Federal Communications Commission.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act of 1995 (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written PRA comments should be submitted on or before February 20, 2024. If you anticipate that you will be submitting comments but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email to PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060–XXXX.

Title: Application to Participate in a 5G Fund Auction, FCC Form 184.

Form Number: FCC Form 184.

Type of Review: New collection.

Respondents: Business or other for-profit entities, not-for-profit institutions, and state, local or tribal governments.

Number of Respondents and Responses: 300 respondents and 300 responses.

Estimated Time per Response: 7 hours.

Frequency of Response: On occasion reporting requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection 47 U.S.C. 154, 254 and 303(r).

Total Annual Burden: 2,100 hours.

Total Annual Cost: No cost.

Needs and Uses: The Commission will use the information collected under this information collection to determine whether applicants are qualified to participate in a 5G Fund auction.

In its November 2011 *USF/ICC Transformation Order*, the Commission took numerous steps to comprehensively reform and modernize the universal service program to ensure that robust, affordable fixed and mobile voice and broadband service are available to those in rural, insular, and high cost areas of the country. *Connect America Fund et al.*, Order and Further Notice of Proposed Rulemaking, FCC 11–161 (*USF/ICC Transformation Order*). Among other things, the Commission (1) established a two-phased Mobility Fund to award universal service support for mobile services in a cost-effective manner to no more than one provider per area in areas where a private-sector business case was lacking, (2) directed that universal service support under the Mobility Fund be awarded by competitive bidding, (3) adopted the rules and framework for Mobility Fund Phase I, and (4) sought comment on the rules and proposed framework for Mobility Fund Phase II. In its February 2017 *Mobility Fund Phase II Report and Order*, the Commission adopted the rules and framework for Mobility Fund Phase II to provide ongoing universal service support over a ten-year term to areas of the country unlikely to receive 4G LTE service absent subsidies, along with the framework for a challenge process to resolve disputes about areas that were found to be presumptively ineligible for support. *Connect America Fund; Universal Service Reform—Mobility Fund II*, Report and Order and Further Notice of Proposed Rulemaking, FCC 17–11. However, in its October 2020 *5G Fund Report and Order*, the Commission established the 5G Fund as a replacement for Mobility Fund Phase II, and adopted the framework and rules

for the 5G Fund to award universal service support in two phases through separate reverse auctions to ensure the deployment of high-speed, 5G mobile service in areas unlikely to see such service absent subsidies. *Establishing a 5G Fund for Rural America*, Report and Order, FCC 20–150 (*5G Fund Report and Order*). In the *5G Fund Report and Order*, the Commission, among other things, adopted a two-stage application process for 5G Fund auctions consisting of pre-auction requirements for applicants seeking to participate in a 5G Fund auction and post-auction requirements for winning bidders applying for 5G Fund support. The Commission decided that applicants seeking to participate in a 5G Fund auction would be required to provide both the information required by section 1.21001(b) of the Commission's existing Part 1, Subpart AA universal service competitive bidding rules, 47 CFR 1.21001(b), and the additional application disclosures and certifications specific to the 5G Fund required by section 54.1014(a) of the Commission's rules, 47 CFR 54.1014(a).

Under this new information collection, the Commission will collect the information, disclosures, and certifications required by sections 1.21001(b) and 54.1014(a) of the Commission's rules from each applicant seeking to participate in a 5G Fund auction, and will use the information, disclosures, and certifications to determine whether an applicant is legally, technically, and financially qualified to participate in a 5G Fund auction. To aid in collecting this information, the Commission has created FCC Form 184, which will be used to provide the information, disclosures, and certifications required by sections 1.21001(b) and 54.1014(a). Commission staff will review the information, disclosures, and certifications collected on FCC Form 184 as part of the pre-auction process, prior to the start of the auction, and determine whether each applicant satisfies the Commission's requirements to participate in an auction for 5G Fund support. Without the information collected on FCC Form 184, the Commission will not be able to determine if an applicant is legally qualified to participate in a 5G Fund auction and has complied with the various applicable regulatory and statutory auction requirements for such participation. This approach provides an appropriate screen to ensure serious participation without being unduly burdensome.

Federal Communications Commission.

Marlene Dortch,

Secretary, Office of the Secretary.

FEDERAL RESERVE SYSTEM

Change in Bank Control Notices; Acquisitions of Shares of a Bank or Bank Holding Company

The notificants listed below have applied under the Change in Bank Control Act (Act) (12 U.S.C. 1817(j)) and § 225.41 of the Board's Regulation Y (12 CFR 225.41) to acquire shares of a bank or bank holding company. The factors that are considered in acting on the applications are set forth in paragraph 7 of the Act (12 U.S.C. 1817(j)(7)).

The public portions of the applications listed below, as well as other related filings required by the Board, if any, are available for immediate inspection at the Federal Reserve Bank(s) indicated below and at the offices of the Board of Governors. This information may also be obtained on an expedited basis, upon request, by contacting the appropriate Federal Reserve Bank and from the Board's Freedom of Information Office at <https://www.federalreserve.gov/foia/request.htm>. Interested persons may express their views in writing on the standards enumerated in paragraph 7 of the Act.

Comments regarding each of these applications must be received at the Reserve Bank indicated or the offices of the Board of Governors, Ann E. Misback, Secretary of the Board, 20th Street and Constitution Avenue NW, Washington, DC 20551–0001, not later than January 5, 2024.

A. Federal Reserve Bank of Kansas City Jeffrey Imgarten, Assistant Vice President, One Memorial Drive, Kansas City, Missouri 64198–0001. Comments can also be sent electronically to KCAApplicationComments@kc.frb.org:
