

Administration and the Congress reached an understanding on the need to support labor capacity-building efforts linked to recommendations identified in the “White Paper” of the Working Group of the Vice Ministers Responsible for Trade and Labor in the countries of Central America and the Dominican Republic. CAFTA–DR-specific trade capacity-building funds were appropriated through fiscal year 2010 and subsequently, the Bureau of International Labor Affairs used its own appropriation to support technical assistance projects in CAFTA–DR partner countries through fiscal year 2020. For more information, see the full text of the CAFTA–DR at <https://ustr.gov/trade-agreements/free-trade-agreements/cafta-dr-dominican-republic-central-america-fta/final-text> and the “White Paper” at http://www.sice.oas.org/labor/White%20Paper_e.pdf.

Under section 403(a) of the CAFTA–DR Implementation Act, 19 U.S.C. 4111(a), the President must report biennially to the Congress on the progress made by the CAFTA–DR countries in implementing the labor obligations and the labor capacity-building provisions found in the Labor Chapter and in Annex 16.5, and in implementing the recommendations contained in the “White Paper.” Section 403(a)(4) requires that the President establish a mechanism to solicit public comments on the matters described in section 403(a)(3)(D) of the CAFTA–DR Implementation Act, 19 U.S.C. 4111(a)(4) (listed below in 2).

By Proclamation, the President delegated the reporting function and the responsibility for soliciting public comments under section 403(a) of the CAFTA–DR Implementation Act, 19 U.S.C. 4111(a), to the Secretary of Labor, in consultation with the USTR (Proclamation No. 8272, 73 FR 38,297 (June 30, 2008)). This notice serves to request public comments as required by this section.

SUPPLEMENTARY INFORMATION: By this notice, IMLS is soliciting comments concerning a plan to conduct a needs assessment study entitled "Measures

that Matter: Assessing Public Library Activities Related to Workforce Development." The study is intended to develop a meaningful approach to measuring the contributions of library-based workforce development activities. It also is intended to assess whether this approach could be used to measure additional library activities that seek to contribute to other dimensions of social wellbeing in the nation's communities. A copy of the proposed information collection request can be obtained by contacting the individual listed in the **ADDRESSES** section of this notice.

I. Background

The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. Our vision is a nation where museums and libraries work together to transform the lives of individuals and communities. To learn more, visit www.imls.gov.

II. Current Actions

In partnership with the Chief Officers of State Library Associations (COSLA), IMLS launched Measures that Matter in 2016, an initiative for coordinating conversations about existing approaches to gathering and using data to improve alignment of public library services, programs, and collections with communities' needs and emerging opportunities. An outgrowth of this effort, this proposed 18-month assessment seeks to pilot an approach for measuring the contributions of library-based workforce development activities and also for ascertaining whether this approach can be used for measuring other library activities intended to influence various dimensions of community wellbeing. This proposed investigation will identify a representative sample of libraries and complete case studies about them using a mix of research methods involving reviews of secondary and administrative data, surveys, interviews and focus groups.

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information
