## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[IA 154-1154; FRL-7392-7]

#### Approval and Promulgation of Implementation Plans; State of Iowa

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the state of Iowa. The SIP revisions, regarding the State's construction permitting rules as they pertain to industrial anaerobic lagoons and anaerobic lagoons for animal feeding operations in Iowa, will help ensure Federal enforceability of the state's air program. In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final

those parts of the rule that are not the subject of an adverse comment.

**DATES:** Comments on this proposed action must be received in writing by November 8, 2002.

**ADDRESSES:** Comments may be mailed to Lynn Slugantz, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

**FOR FURTHER INFORMATION CONTACT:** Lynn Slugantz at (913) 551-7883.

**SUPPLEMENTARY INFORMATION:** See the information provided in the direct final rule which is located in the rules section of the **Federal Register**.

Dated: June 3, 2002.

**William W. Rice,**

*Acting Regional Administrator, Region 7.*

## DEPARTMENT OF THE INTERIOR

### Fish and Wildlife Service

#### 50 CFR Part 17

RIN 1018-AI21

#### Endangered and Threatened Wildlife and Plants; Proposed Designation of Critical Habitat for *Astragalus pycnostachyus* var. *lanosissimus*, a Plant From the Coast of Southern and Central California

**AGENCY:** Fish and Wildlife Service, Interior.

**ACTION:** Proposed rule.

**SUMMARY:** We, the U.S. Fish and Wildlife Service (Service), propose to designate critical habitat pursuant to the Endangered Species Act of 1973, as amended (Act), for *Astragalus pycnostachyus* var. *lanosissimus* (Ventura marsh milk-vetch). Approximately 170 hectares (ha) (420 acres (ac)) of land fall within the boundaries of the proposed critical habitat designation. Proposed critical habitat is located in Santa Barbara and Ventura counties, California. Critical habitat receives protection from destruction or adverse modification through required consultation under section 7 of the Act with regard to actions carried out, funded or authorized by Federal agencies.

We are soliciting data and comments from the public on all aspects of this proposal, including data on economic and other impacts of the designation. We may revise this proposal to incorporate or address new information received during the comment period.

**DATES:** We will accept comments until December 9, 2002. Public hearing requests must be received by November 25, 2002.

**ADDRESSES:** If you wish to comment, you may submit your comments and materials concerning this proposal by any one of several methods:

(1) You may submit written comments and information to the Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003.

(2) You may also send comments by electronic mail (e-mail) to [fw1venturamilkvetch@fws.gov](mailto:fw1venturamilkvetch@fws.gov). See the Public Comments Solicited section below for file format and other information about electronic filing.

(3) You may hand-deliver comments to our Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003.

Comments and materials received will be available for public inspection, by appointment, during normal business hours at the above address.

**FOR FURTHER INFORMATION CONTACT:** Rick Farris, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road, Suite B, Ventura, CA 93003 (telephone 805/644-1766; facsimile 805/644-3958). Information regarding this proposal is available in alternate formats upon request.

#### SUPPLEMENTARY INFORMATION:

##### Background

*Astragalus pycnostachyus* var. *lanosissimus* (Ventura marsh milk-vetch) is an herbaceous perennial in the pea family (Fabaceae). It has a thick taproot and multiple erect, reddish stems, 40 to 90 centimeters (cm) (16 to 36 inches (in)) tall, that emerge from the root crown. The pinnately compound leaves (divided more than once on the same stem and arranged like a feather) are densely covered with silvery white hairs. The 27 to 39 leaflets are 5 to 20 millimeters (mm) (0.2 to 0.8 in) long. The numerous greenish-white to cream colored flowers are in dense clusters and are 7 to 10 mm (0.3 to 0.4 in) long. The calyx (a whorl of leaves below the flower) teeth are 1.2 to 1.5 mm (0.04 in) long. The fruits are single-celled pods 8 to 11 mm (0.31 to 0.43 in) long (Barneby 1964). The blooming time has been recorded as July to October (Barneby 1964); however, the one extant population was observed to flower from June to September (Wilken and Wardlaw 2001). This variety is distinguished from *A. pycnostachyus* var. *pycnostachyus* (brine milk-vetch) by certain flower characteristics (*i.e.*, the
