

information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by June 23, 2025. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: Field Crops Production—Substantive Change.

OMB Control Number: 0535–0002.

Summary of Collection: General authority for these data collection activities is granted under 7 U.S.C. 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .”. The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

The primary functions of the National Agricultural Statistics Services’ (NASS) are to prepare and issue State and national estimates of crop and livestock production, disposition, and prices and to collect information on related environmental and economic factors. The Field Crops Production Program consists of probability field crops surveys and supplemental panel surveys. NASS will use surveys to

collect information through a combination of the internet, mail, telephone, and personnel interviews. The general authority for these data collection activities is granted under 7 U.S.C. 2204.

The National Agricultural Statistics Service (NASS) is requesting a substantive change to the Field Crops Production information collection request (OMB No. 0535–0002) to reinstate the Small Grains County Estimates Survey beginning with the 2025 production year to be conducted in summer-fall 2025. The questionnaire will remain unchanged. The changes in this request increases burden hours.

Need and Use of the Information: NASS collects information on field crops to monitor agricultural developments across the country that may impact on the nation’s food supply. The Secretary of Agriculture uses estimates of crop production to administer farm program legislation and import and export programs. Collecting this information less frequently would eliminate the data needed to keep the Department abreast of changes at the State and national level.

Description of Respondents: Farms; Business or other for-profits.

Number of Respondents: 426,675.

Frequency of Responses: Reporting: Weekly, Monthly, Quarterly, Annually.

Total Burden Hours: 139,806.

National Agricultural Statistics Service

Title: Conservation Effects Assessment Project (CEAP) Survey.

OMB Control Number: 0535–0245.

Summary of Collection: General authority for these data collection activities is granted under 7 U.S.C. 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .”. The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

The National Agricultural Statistics Service (NASS) is requesting a substantive change to the National Resources Inventory Conservation Effects Assessment Project (NRI CEAP) survey. NASS requests to use the seven minimum category version of the race/ethnicity question (including examples) as contained in the Office of

Management and Budget’s Statistical Policy Directive 15. Using the minimum categories with examples would allow NASS to keep the questionnaire at 44 pages and reduce burden to the public compared to using the standard race/ethnicity question version. Disclosure and data quality concerns would prevent most summarized data from the standard race/ethnicity version from publication.

Need and Use of the Information: The survey will utilize personal interviews to administer a questionnaire that is designed to obtain from farm operators field-specific data associated with selected National Resources Inventory sub-sample units in the contiguous 48 States. Data collected in this survey will be used in conjunction with previously collected data on soils, climate, and cropping history to model impacts of conservation practices on the larger environment. USDA needs updated scientifically credible data on residue and tillage management, nutrient management, and conservation practices in order to quantify and assess current impacts of farming practices and to document changes.

Description of Respondents: Farms and Ranches.

Number of Respondents: 20,000.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 17,173.

Departmental Information Collection Clearance Officer.

SUPPLEMENTARY INFORMATION: The purpose of the meeting is to:

1. Hear from Title II project proponents and discuss Title II project proposals;
2. Make funding recommendations on Title II projects;

3. Approve meeting minutes; and
4. Schedule the next meeting.

The agenda will include time for individuals to make oral statements of three minutes or less. Individuals wishing to make an oral statement should make a request in writing at least three days prior to the meeting date to be scheduled on the agenda. Written comments may be submitted to the Forest Service up to 14 days after the meeting date listed under **DATES**.

Please contact the person listed under **FOR FURTHER INFORMATION CONTACT**, by or before the deadline, for all questions related to the meeting. All comments, including names and addresses when provided, are placed in the record and are available for public inspection and copying. The public may inspect comments received upon request.

Meeting Accommodations: The meeting location is compliant with the Americans with Disabilities Act, and the USDA provides reasonable accommodation to individuals with disabilities where appropriate. If you are a person requiring reasonable accommodation, please make requests in advance for sign language interpretation, assistive listening devices, or other reasonable accommodation to the person listed under the **FOR FURTHER INFORMATION CONTACT** section, or contact USDA's TARGET Center at (202) 720-2600 (voice and TTY) or USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

Equal opportunity practices, in accordance with USDA policies, will be followed in all membership appointments to the committee.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Dated: April 16, 2025.
