

Brief Overview of the Request

The City of Calexico requested a release from grant assurance obligations for approximately 13.44 acres of airport land consisting of a parcel of vacant, undeveloped land on the south side of the airport. The parcel is separated from the airfield by a public road and is located between Anza Road and the Mexican border. Since the property is not contiguous to the airfield, the property is not needed for airport purposes and cannot be used for aeronautical activities. Following the sale, the property's redevelopment for non-aeronautical purposes will comply with local zoning and compatible land-use requirements. The parcel will be sold at fair market value based on the land's appraised value. The proceeds from the sale of the land will be used to acquire additional land adjacent to the airfield, which is needed for airport development, including a new terminal, an aircraft ramp, and auto parking. The land disposal and acquisition will provide a direct benefit to the airport and civil aviation.

Issued in Hawthorne, California, on August 9, 2006.
