

While the NOI identified the end date of the scoping period as May 31, 2022, the BLM ultimately extended it until June 1, 2022. Two virtual public scoping meetings were held on May 17 and May 18, 2022. During the scoping period, the BLM received 59 unique submittals totaling 416 discrete comments. The Environmental Impact Statement Scoping Report for the Cross-Tie 500-kV Transmission Project can be found on BLM's ePlanning Project website (see **ADDRESSES**).

This NOA initiates the Draft EIS review process. The BLM will hold one virtual and up to four in-person public information meetings associated with the Project. Possible in-person meeting locations include: Ely, Nevada, and Delta, Milford, and Nephi, Utah. The specific date(s) and location(s) of these meetings will be announced at least 10 days in advance through news releases, local media, social media, and the BLM's ePlanning Project website (see **ADDRESSES**). During the public comment period, the BLM will accept comments through email, mail, and hotline.

The BLM will continue to consult with Indian Tribal Nations on a government-to-government basis in accordance with Executive Order 13175, BLM Manual Section 1780, and other Departmental policies. Tribal concerns, including impacts on Indian trust assets and potential impacts to cultural resources, will be given due consideration. Consultation will continue on an individual basis with interested Tribes.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Agenda may be subject to change.

Public Participation: Due to limited space, those wishing to attend the educational tour to the Lake Pleasant Herd Management Area on December 12 must register via email to dboothe@blm.gov no later than 5 p.m. MT on November 29, 2023. Attendees must provide their own high clearance transportation and any necessary food, health and safety items needed for a full day in the field.

The Board, the BLM, and the USFS welcome comments from all interested parties. The public will have an opportunity to make a verbal statement to the Advisory Board in person and virtually via Zoom (audio only) on Wednesday, December 13, from 10:15 a.m. to 11:15 a.m. MT and on Thursday, December 14, from 3 p.m. to 4 p.m. MT. To provide comments via Zoom, interested parties must register by December 8, 2023 at the following website: <https://www.blm.gov/programs/wild-horse-and-burro/advisory-board>. To provide comments in-person, interested parties may register on-site up to one hour before the comment period commences.

Individuals who have not registered in advance may be permitted to offer comment if time allows. Participants using desktops, laptops, smartphones, and other personal digital devices will be able to participate with audio only via a link provided by the BLM. Those with phone-only access will be able to participate via a phone number and meeting ID provided by the BLM at the time of registration. The Board may limit the length of comments, depending on the number of participants who register in advance. The public may also submit written comments to the Board in addition to, or in lieu of, providing verbal comment. Written comments should be submitted to the Advisory Board at BLM_WO_Advisory_Board_Comments@blm.gov. Comments emailed three days prior to the meeting no later than 5 p.m. MT will be provided to the Advisory Board for consideration during the meeting. The BLM will record the entire meeting, including the allotted public comment sessions. Comments should be specific and explain the reason for the recommendation(s). Comments supported by quantitative information, studies, or those that include citations and analysis of applicable laws and

regulations are most useful, and more likely to assist the decision-making process for the management and protection of wild horses and burros.

Beyond live captioning, any person(s) with special needs, such as for an auxiliary aid, interpreting service, assistive listening device, or materials in an alternate format, must notify Ms. Boothe 2 weeks before the scheduled meeting date. It is important to adhere to the 2-week notice to allow enough time to arrange for the auxiliary aid or special service. Live captioning will be available throughout the event on the BLM livestream page at www.blm.gov/live.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, the BLM cannot guarantee that it will be able to do so.

DEPARTMENT OF THE INTERIOR

National Indian Gaming Commission

Fee Rate and Fingerprint Fees

AGENCY: National Indian Gaming Commission, Interior.

ACTION: Notice.

SUMMARY: Notice is hereby given that the National Indian Gaming Commission has adopted its annual fee rates of 0.00% for tier 1 and 0.08% (.0008) for tier 2, which maintain the current fee rates. These rates shall apply to all assessable gross revenues from each gaming operation under the jurisdiction of the Commission. If a tribe has a certificate of self-regulation, the fee rate on Class II revenues shall be 0.04% (.0004) which is one-half of the annual fee rate. The annual fee rates are effective November 1, 2023, and will remain in effect until new rates are adopted. The National Indian Gaming Commission has also adopted its fingerprint processing fee of \$53 per card which represents an increase of \$8 per card. The fingerprint processing fee is effective November 1, 2023, and will remain in effect until the Commission adopts a new rate.

FOR FURTHER INFORMATION CONTACT:

Yvonne Lee, National Indian Gaming Commission, 1849 C Street NW, Mail Stop #1621, Washington, DC 20240; telephone (202) 632–7003; fax (202) 632–7066.

SUPPLEMENTARY INFORMATION: The Indian Gaming Regulatory Act (IGRA) established the National Indian Gaming Commission, which is charged with regulating gaming on Indian lands.

Commission regulations (25 CFR 514) provide for a system of fee assessment and payment that is self-administered by gaming operations.

Pursuant to those regulations, the Commission is required to adopt and communicate assessment rates and the gaming operations are required to apply those rates to their revenues, compute the fees to be paid, report the revenues, and remit the fees to the Commission. All gaming operations within the jurisdiction of the Commission are required to self-administer the provisions of these regulations, and report and pay any fees that are due to the Commission. It is necessary for the Commission to maintain the fee rate to ensure that the agency has sufficient funding to fully meet its statutory and regulatory responsibilities as the gaming industry continues to emerge from the pandemic. In addition, it is critical for the Commission to maintain constantly an adequate transition carryover balance to cover any cash flow variations.

Pursuant to 25 CFR 514, the Commission must also review annually the costs involved in processing fingerprint cards and set a fee based on fees charged by the Federal Bureau of Investigation and costs incurred by the Commission. Commission costs include Commission personnel, supplies, equipment & infrastructure costs, and postage to submit the results to the requesting tribe. The number of fingerprint cards submitted to the NIGC for processing has significantly decreased since the pandemic. The fingerprint processing fee increase is a result of spreading the fixed costs allocated to fingerprint processing over a smaller number of cards processed. In addition, the FY24 fingerprint processing fee includes the cost allocation from the one-time capital investments associated with the Washington, DC headquarters office relocation and the Agency's hardware refresh of core networking and server computing devices required to support the Agency's infrastructure operations. Maintaining valid support agreements and replacing aging hardware when needed is vital to ensure maximum uptime for IT operations while
