Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication, and may request that the Commission place the prohibited communication and responses thereto in the decisional record. Office of Energy Efficiency and Renewable Energy

[Case No. RF-009]

Energy Conservation Program for Consumer Products: Publication of the Petition for Waiver and Notice of Granting the Application for Interim Waiver of Electrolux From the Department of Energy Residential Refrigerator and Refrigerator-Freezer Test Procedures

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of Petition for Waiver, Notice of Granting Application for Interim Waiver, and request for public comments.

SUMMARY: This notice announces receipt of and publishes the Electrolux Home Products, Inc. (Electrolux) Petition for Waiver (hereafter, "Petition") from parts of the Department of Energy (DOE) test procedure for determining the energy consumption of electric refrigerators and refrigerator-freezers. The waiver request pertains to Electrolux's specified French door bottom-mount residential refrigerators and refrigerator-freezers, a product line that utilizes a control logic that changes the wattage of the anti-sweat heaters based upon the ambient relative humidity conditions in order to prevent condensation. The existing test procedure does not take humidity or adaptive control technology into account. Therefore, Electrolux has suggested an alternate test procedure that takes adaptive control technology into account when measuring energy consumption. DOE is soliciting comments, data, and information concerning Electrolux's Petition and the suggested alternate test procedure. DOE is also publishing notice of its March 3, 2009 grant of an interim waiver to Electrolux. Subsequently, DOE received a request from Electrolux to expand the scope of its interim waiver to four additional products. DOE has decided to grant this request.

DATES: DOE will accept comments, data, and information with respect to Electrolux's Petition until, but no later than July 6, 2009.

ADDRESSES: You may submit comments, identified by case number [RF-009], by any of the following methods:

Further, Part A authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results which measure energy efficiency, energy use, or estimated operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for residential refrigerators and refrigerator-freezers is contained in 10 CFR Part 430, Subpart B, Appendix A1.
