Type of Information Collection

Request: New Collection; *Title of Information Collection*: Making Good Choices Survey; *Form No.*: CMS-10065 (OMB# 0938-NEW); *Use*: This is a request for clearance for a survey "Making Good Choices about Medicare Health Plan Survey". As part of the continuous quality improvement effort for the National Medicare Education Program (NMEP), this survey will be used to assess the impact of new educational materials developed for individuals who are turning 65 and entering the Medicare program. The measures and educational materials are based on the Transtheoretical Model of Change (TTM, the "stage model"), which has been applied and proven effective in facilitating behavior change in a wide range of health behaviors including smoking cessation, exercise acquisition and mammography screening. The materials are designed to increase new enrollees' readiness to compare their health plan options and make an informed choice. The use of an investigational design in the present study (one group will receive the materials, another will not) will allow CMS to determine whether the materials increase readiness to make an informed choice, self-efficacy, knowledge about the Medicare program, information seeking, and satisfaction with health plan choice. It will assist CMS with its national educational campaign to inform beneficiaries about their health plan choices. *Frequency*: Once with follow-up; *Affected Public*: Individuals or Households; *Number of Respondents*: 1350; *Total Annual Responses*: 1350; *Total Annual Hours*: 1012.5 hours.
