

success stories are also requested by EPA. Response to the collection is not required to obtain or retain a benefit. Information in the annual Report to Congress is aggregated and is not of a confidential nature. None of the information collected by this action results in or requests sensitive information of any nature from the states.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: States.

Estimated Number of Respondents: 53.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 2,120.

Estimated Total Annual Cost: \$93,216 includes \$0 annualized capital or O&M costs. Changes in the Estimates: Since there is no increase or decrease, the burden hour remains at 2,120.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 25, 2004, (69 FR 29718), EPA sought comments on this ICR pursuant

to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OECA-2004-0021, which is available for public viewing at the Enforcement and Compliance Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket and Information Center Docket is: (202) 566-1752. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. When in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: NSPS for Phosphate Rock Plants (40 CFR part 60, subpart NN) (Renewal)

Abstract: Particulate matter emissions from phosphate rock plants cause or contribute to air pollution that may reasonably be anticipated to endanger public health or welfare. Therefore,

NSPS were promulgated for this source category.

The control of emissions of particulate matter from phosphate rock plants requires not only the installation of properly designed equipment, but also the operation and maintenance of that equipment. Emissions of particulate matter from phosphate rock plants are the result of operation of the calciners, dryers, grinders, and ground rock handling and storage facilities. These standards rely on the capture of particulate emissions by a baghouse or wet scrubber.

In order to ensure compliance with these standards, adequate reporting and recordkeeping is necessary. In the absence of such information, enforcement personnel would be unable to determine whether the standards are being met on a continuous basis, as required by the Clean Air Act.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. Notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to check if the pollution control devices are properly installed and operated. Performance test reports are needed as these are the Agency's record of a source's initial capability to comply with the emission standard and note the operating conditions (flow rate and pressure drop) under which compliance was achieved. Quarterly reports are used for problem identification, as a check on source operation and maintenance, and for compliance determinations. The standard also requires semiannual reporting of deviations from monitored scrubber pressures or opacity, as these are good indicators of the source's compliance status.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 55.2 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions;

develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Phosphate Rock Plants.

Estimated Number of Respondents: 13.

Frequency of Response: Initially and semiannually.

Estimated Total Annual Hour Burden: 1,602 hours.

Estimated Total Annual Costs: \$226,245, which includes \$12,000 annualized capital/startup costs, \$112,000 annual O&M costs, and \$102,245 annual labor costs.

Changes in the Estimates: There is decrease of 1,400 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is due to a decrease in the estimated number of existing affected sources and a decrease in the predicted growth rate of the industry.
