SUPPLEMENTARY INFORMATION: The Energy Policy and Conservation Act of 1975 (EPCA), as amended, directed the U.S. Department of Energy (DOE) to prescribe energy conservation standards for beverage vending machines (42 U.S.C. 6295(v)). DOE published a final rule establishing standards for beverage vending machines on August 31, 2009. (74 FR at 44914). Within 6 years after issuance of any final rule establishing or amending a standard, EPCA also requires DOE to publish a notice determining whether to amend such standards. If DOE determines that amendment is warranted, DOE must also issue a notice of proposed rulemaking (NPR) including new proposed energy conservation standards by that same date. (42 U.S.C. 6295(m)(1))

On June 4, 2013, DOE published a notice of public meeting and availability of Framework Document to consider amending the energy conservation standards for refrigerated beverage vending machines (78 FR 33262). The notice requested public comment from interested parties and provided for the

submission of comments by July 19, 2013. Thereafter, Royal Vendors, Inc. requested an extension of the public comment period by 90 days to October 10, 2013, in order to allow small manufacturers to evaluate the wide range of topics on which comments have been requested by DOE.

DOE believes that extending the comment period by 30 days to allow additional time for interested parties to submit comments is appropriate. Therefore, DOE is extending the comment period until August 16, 2013 to provide interested parties additional time to prepare and submit comments. Accordingly, DOE will consider any comments received by August 16, 2013 to be timely submitted.

Issued in Washington, DC, on July 3, 2013.

Kathleen B. Hogan,

Deputy Assistant Secretary for Energy Efficiency, Energy Efficiency and Renewable Energy.
