Proposed Project

Quarantine Station Illness Response Forms: Airline, Maritime, and Land/Border Crossing—New—National Center for Preparedness, Detection, and Control of Infectious Diseases (NCPDCID), Centers for Disease Control and Prevention (CDC).

CDC proposes to collect patient-level clinical, epidemiologic, and demographic data from ill travelers and their possible contacts in order to fulfill its regulatory responsibility to prevent the importation of communicable diseases from foreign countries (42 CFR Part 71) and interstate control of communicable diseases in humans (42 CFR Part 70).

Background and Brief Description

Section 361 of the Public Health Service (PHS) Act (42 U.S.C. 264) authorizes the Secretary of Health and Human Services to make and enforce regulations necessary to prevent the introduction, transmission or spread of communicable diseases from foreign countries into the United States. The regulations that implement this law, 42 CFR Parts 70 and 71, authorize quarantine officers and other personnel to inspect and undertake necessary control measures with respect to conveyances (e.g., airplanes, cruise ships, trucks, etc.), persons, and shipments of animals and etiologic agents in order to protect the public health. The regulations also require conveyances to immediately report an "ill person" or any death on board to the Quarantine Station prior to arrival in the United States. An "ill person" is defined in statute by:

—Fever ($\geq 100^\circ\text{F}$ or 38°C) persisting ≥ 48 hours

—Fever ($\geq 100^\circ\text{F}$ or 38°C) AND rash, glandular swelling, or jaundice

—Diarrhea (≥ 3 stools in 24 hours or greater than normal amount)

The Severe Acute Respiratory Syndrome (SARS) situation and concern about pandemic influenza and other communicable diseases have prompted CDC Quarantine Stations to recommend that *all* illnesses be reported prior to arrival.

CDC Quarantine Stations are currently located at 20 international U.S. Ports of Entry. When a suspected illness is reported to the Quarantine Station,
