Needs and Uses: The information collection, the Yellow Pro application, is necessary to provide a personalized candidate experience to every job seeker in NAVAIR, resulting in quality hires and faster fills. To support the sourcing and recruitment requirements for the command, NAVAIR utilizes Yello Pro to collect prospective candidates hiring information such as name, email, phone, education/experience, GPA, etc. along with their resume for hiring managers to review and consider when filling NAVAIR vacancies. Due to unprecedented hiring demand in 2017 and 2018, NAVAIR moved forward with a pilot of a Software-as-a-Service IT System product named Yello to meet mission demands. As part of the Yello IT System, the Yello Pro application was developed. It enables recruiters to collaborate to attract and engage top talent while providing vital command recruiting metrics that provide meaningful insights and lead to more strategic recruitment initiatives and outcomes. Additionally, it improves the ability to control access to candidate data and allows sanitization and aggregation to perform return on investment of recruiting efforts.

Title of Collection: National Teacher and Principal Survey of 2023–2024 (NTPS 2023–24) Preliminary Field Activities.

OMB Control Number: 1850–0598.

Type of Review: Revision of a currently approved collection.

Total Estimated Number of Annual Responses: 18,476.

Total Estimated Number of Annual Burden Hours: 3,419.

Abstract: The National Teacher and Principal Survey (NTPS), conducted every two or three years by the National Center for Education Statistics (NCES), is a system of related questionnaires that provides descriptive data on the context of elementary and secondary education. Redesignated from the Schools and Staffing Survey (SASS) with a focus on flexibility, timeliness, and integration with other ED data, the NTPS system allows for school, principal, and teacher characteristics to be analyzed in relation to one another.

NTPS is an in-depth, nationally representative survey of first through twelfth grade public and private school teachers, principals, and schools. Kindergarten teachers in schools with at least a first grade are also surveyed. NTPS utilizes core content and a series of rotating modules to allow timely collection of important education trends as well as trend analysis. Topics covered include characteristics of teachers, principals, schools, teacher training opportunities, retention, retirement, hiring, and shortages. NTPS also functions as the base-year for the longitudinal studies Teacher Follow-up Survey (TFS) and Principal Follow-up Survey (PFS).

This request is to conduct the NTPS 2023–24 preliminary activities, namely

special district recruitment, recruitment of endorser, and Screener Survey for the NTPS and the NTPS follow-up surveys. The NTPS 2023–24 Main Study final procedures and materials will be published for public comment and OMB review in winter 2022–23, and OMB approval for the follow-up surveys to NTPS 2023–24—the Teacher Follow-up Survey (TFS) and the Principal Follow-up Survey (PFS) will be requested in an additional package in winter 2023–24.

I. Funding Opportunity Description

Purpose of Program: The Basic Needs for Postsecondary Students Program provides grants to eligible institutions of higher education (IHEs) to support programs that address the basic needs of students and to report on practices that improve outcomes for students.

Background: The Basic Needs for Postsecondary Students Program supports IHEs that demonstrate a commitment to developing or enhancing systemic approaches to support the basic needs of students. There is growing evidence that food and housing insecurities compromise the well-being of millions of students across the country, which may reduce the odds that they will complete their degrees or certificates.

The U.S. Government Accountability Office analyzed dozens of studies and found rates of food insecurity among college students were typically reported at more than 30 percent.¹ Studies show that, if a student has not eaten sufficient nutritious food or slept the night before a class or exam, they will have greater difficulty mastering the material and performing well.² Students experiencing housing insecurity have lower degree attainment and grade point averages and a higher probability of enrolling part-time rather than full-time.³ Similarly, a recent study of more than 195,000 students attending 202 colleges and
