

amendment through a quarterly tracking report:

(A) An error in the country of origin when the entered value for the line item is less than \$10,000;

(B) An error in the net quantity of the merchandise when the difference between the entered and correct quantities is less than 10 percent or the entered value for the line item is less than \$10,000;

(C) A value error when the difference between the entered and correct values is less than \$10,000;

(D) An error in the HTSUS number when the entered value for the line item is less than \$10,000;

(E) An error relative to other charges (freight, etc.) when the difference between the entered and correct values of the merchandise is less than \$10,000.

*Guidelines for processing non-revenue related statistical information errors:* (a) Statistical information error requiring report to Census Bureau:

- Importer files individual amendment letter.
- Customs unsets liquidation cycle and issues a "change liquidation".
- After liquidation, importer may file a protest or petition.
- (b) Statistical information error not requiring report to Census Bureau:
  - Importer files quarterly tracking report.
  - Customs does not unset liquidation cycle and issues a "no change" liquidation in due course.
  - After liquidation, importer may file a protest or petition.

Importers who voluntarily participate in the test commit, by such participation, to report all errors through the test procedure by filing either individual amendment letters or quarterly tracking reports (as appropriate under the above procedures) for the duration of the test.

Customs emphasizes that the test applies only to the described procedure for reporting entry summary errors prior to liquidation. The test procedure has no effect on Customs enforcement authority or on other statutory or regulatory provisions and requirements relating to admissibility, restricted or prohibited merchandise, other agency requirements, etc. It is noted that even during the test, the administrative exemption under which Customs disregards ordinary underpayments of up to \$20, does not apply to antidumping and countervailing duties.

#### Authorization for the Test

Pursuant to Customs Modernization provisions in the North American Free Trade Agreement Implementation Act, Pub. L. 103-182, 107 Stat. 2057, 2170

(December 8, 1993), Customs amended its regulations (19 CFR chapter I), in part, to enable the Commissioner of Customs to conduct limited test programs or procedures designed to evaluate the effectiveness of new technology or operations procedures which have as their goal the more efficient and effective processing of passengers, carriers, and merchandise. Section 101.9(a) of the Customs Regulations (19 CFR 101.9(a)) allows for general testing for this purpose. *See* T.D. 95-21. This test is established pursuant to that regulatory provision.

#### Misconduct

The test is open to all importers who elect to follow the procedures set forth in this document for correcting already filed entry summaries prior to liquidation. However, a participant making and amending entries under the test procedures will be subject to the usual penalties, liquidated damages, and other administrative sanctions for any Customs law violations.

#### Evaluation of the Test

Although by no means exclusive, the following evaluation factors may be used by Customs to assess the merits of the test procedure:

1. Workload impact;
2. Policy and procedure accommodations;
3. System efficiency;
4. Operational efficiency; or
5. Other issues raised by public comment or by the test participants.

Results of the test will be formulated at the conclusion of the test and will be made available to the public upon request. The test may be extended if warranted. Additional information on the post entry amendment procedure can be found under "Importing and Exporting" at <http://www.customs.gov>.
