## SECURITIES AND EXCHANGE COMMISSION

### Submission for OMB Review; Comment Request

Upon written request, Copies available from: U.S. Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549–0213.

#### Extension:

Rule 15g–9; SEC File No. 270–325; OMB Control No. 3235–0385.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (“Commission”) has submitted to the Office of Management and Budget a request for extension of the previously approved collection of information discussed below.

Section 15(c)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78a *et seq.*) (the “Exchange Act”) authorizes the Commission to promulgate rules that prescribe means reasonably designed to prevent fraudulent, deceptive, or manipulative practices in connection with over-the-counter (“OTC”) securities transactions. Pursuant to this authority, the Commission in 1989 adopted Rule 15a–6 (the “Rule”), which was subsequently redesignated as Rule 15g–9, 17 CFR 240.15g–9. The Rule requires broker-dealers to produce a written suitability determination for, and to obtain a written customer agreement to, certain recommended transactions in low-priced stocks that are not registered on a national securities exchange or authorized for trading on NASDAQ, and

whose issuers do not meet certain minimum financial standards. The Rule is intended to prevent the indiscriminate use by broker-dealers of fraudulent, high pressure telephone sales campaigns to sell low-priced securities to unsophisticated customers.

The Commission staff estimates that there are approximately 240 broker-dealers subject to the Rule. The burden of the Rule on a respondent varies widely depending on the frequency with which new customers are solicited. On the average for all respondents, the staff has estimated that respondents process three new customers per week, or approximately 156 new customer suitability determinations per year. We also estimate that a broker-dealer would expend approximately one-half hour per new customer in obtaining, reviewing, and processing (including transmitting to the customer) the information required by Rule 15g–9, and each respondent would consequently spend 78 hours annually (156 customers × .5 hours) obtaining the information required in the rule. We determined, based on the estimate of 240 broker-dealer respondents, that the current annual burden of Rule 15g–9 is 18,720 hours (240 respondents × 78 hours).

In addition, we estimate that if tangible communications alone are used to transmit the documents required by Rule 15g–9, each customer should take: (1) No more than eight minutes to review, sign and return the suitability determination document; and (2) no more than two minutes to either read and return or produce the customer agreement for a particular recommended transaction in penny stocks, listing the issuer and number of shares of the particular penny stock to be purchased, and send it to the broker-dealer. Thus, the total current customer respondent burden is approximately 10 minutes per response, for an aggregate total of 1,560 minutes for each broker-dealer respondent. Since there are 240 respondents, the annual burden for customer responses is 374,400 minutes (1,560 customer minutes per each of the 240 respondents) or 6,240 hours.

In addition, we estimate that, if tangible means of communications alone are used, broker-dealers could incur a recordkeeping burden under Rule 15g–9 of approximately two minutes per response. Since there are approximately 240 broker-dealer respondents and each respondent would have approximately 156 responses annually, respondents would incur an aggregate recordkeeping burden of 74,880 minutes (240 respondents × 156 responses × 2 minutes per response), or 1,248 hours. Accordingly, the aggregate
