## DEPARTMENT OF AGRICULTURE

### Submission for OMB Review; Comment Request

November 24, 2020.

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested regarding; whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by December 31, 2020 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). Find this particular information collection by selecting "Currently under 30-day

Review—Open for Public Comments" or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

### Animal Plant and Health Inspection Service

**Title:** Export Health Certificate for Animal Products.

**OMB Control Number:** 0579-0256.

**Summary of Collection:** The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture board authority to detect, control, or eradicate pests or diseases of livestock or poultry. The export of agricultural commodities, including animals and animal products, is a major business in the United States and contributes to a favorable balance of trade. To facilitate the export of U.S. animals and products, the U.S. Department of Agriculture, Animal and Plant Health Inspection Service (APHIS), Veterinary Services maintains information regarding the import health requirements of other countries for animals and animal products exported from the United States. Many countries that import animal products from the United States require a certification from APHIS that the United States is free of certain diseases. These countries may also require that our certification statement contain additional declarations regarding the U.S. animal products being exported. Regulations pertaining to export certification of animals and animal products are contained in 9 CFR part 91. VS forms 16-4 and VS 16-4A, Export Certificate for Animal Products and Export Certificate for Animal Products Continuation Sheet; a hearing request to appeal VS' decision to refuse to grant a certificate; a notification of tampered certificate; and letterhead certification can be used to meet these requirements.

**Need and Use of the Information:** VS forms 16-4 and 16-4A serve as the official certification that the United States is free of rinderpest, foot-and-mouth disease, classical swine fever, swine vesicular disease, African swine fever, bovine fever, bovine spongiform encephalopathy, and contagious bovine pleuropneumonia. APHIS will collect the exporter's name, address, the name and address of the consignee, the quantity,

and unit of measure, type of product being exported, the exporter's identification, and type of conveyance (ship, train, and truck) that will transport the products. The form also asks for any declarations the receiving country might require such as statements concerning where the product originated and how it was processed. Without the information, many countries would not accept animal products from the United States, creating a serious trade imbalance and adversely affecting U.S. exporters.

**Description of Respondents:** Business or other-for-profit.

**Number of Respondents:** 42,000.

**Frequency of Responses:** Reporting: On occasion.

**Total Burden Hours:** 51,771.
